

[11694-22]

XII
11 A-1

DIRECTIONS FOR USE:

To kill Houseflies, Mosquitoes, Flying Moths and gnats: Close all doors and windows. Determine the amount of cubic space to be treated. Point nozzle upward and direct the aerosol mist to insects; walls, cross beams, under sides of pallets, over and around stacked goods, into empty bins and corners to effect thorough coverage of all surfaces. Repeat applications as necessary. Fog particularly well in areas in which these insects are most likely to congregate or rest. Fog at the rate of 3 seconds per 1000 cubic feet of space.

Keep the treated area closed if possible for 15 minutes. After treatment, air out thoroughly and sweep up and remove dead insects.

In industrial locations, do not spray closer than 36 inches away from fabrics or upholstery. Spraying closer than as directed above or excessive treatment may cause damage.

Do Not Remain in Treated Area.

CONSTRUCTION CHEMICAL SPECIALITIES
SHAWNEE MISSION, KANSAS 66203

EPA Reg. No. 11694-22

Net Contents: 1 lb.

FOR INDUSTRIAL USE ONLY

TRI-X
Synergized Pyrethrin Aerosol
Insecticide

ACTIVE INGREDIENTS:

Pyrethrins	0.30%
*Piperonyl butoxide, technical	0.60%
*N-octyl bicycloheptene dicarboximide	1.00%
Petroleum distillate	18.10%
	20.00%

INERT INGREDIENTS:

50:50 ratio of dichlorodifluoroethane and trichloromonofluoroethane	80.00%
	100.00%

*Equivalent to 0.48% (butyl butyl) (3-propyl-piperonyl) ether and 0.12% related compounds.

†MGK 265 Insecticide Synergist

CAUTION:

KEEP OUT OF REACH OF CHILDREN

WARNING: Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 100°F may cause bursting. Never throw container into fire.

IMPORTANT: Do not apply directly to food. Cover or remove all food and food processing equipment during application. Do not apply while food processing is underway. After spraying in meat packing plants, bakeries and other food processing plants, wash with potable water all benches, shelving, etc. where exposed food will be handled. In case washing is impractical, do not allow food to come in contact with treated surfaces for at least 48 hours.
