### DIRECTIONS FOR USE

**INDOORS - FOR HOUSEFLIES, MOSQUITOES, AND GNATS:** Apply as a space spray. Mix well before using. Fill spray tank with undiluted insecticide spray formulation. Adjust pressure and nozzle to deliver a fine mist spray. Close all doors and windows. Point nozzle upward, direct the spray mist to all parts of the room especially windows and other light sources which attract these insects. Keep the spray nozzle at all times at least four feet from the fabrics to avoid wetting or staining. Fill the room with mist at the dosage rate of one fluid ounce per 1,000 cu. ft. of space. Then leave the treated area. Keep the room closed for at least 15 minutes. Ventilate the room when treatment is completed and before re-entry.

**INDOORS - FOR CRAWLING INSECTS:** Apply as a contact spray. Mix well before using. Fill spray tank with undiluted insecticide spray formulation. Keep spray nozzle about 8 to 12 inches from surface to be treated. Adjust pressure and nozzle to deliver a coarse spray with particle size larger than that of the average aerosol. When possible, spray directly on roaches, earwigs, grain mites, sowbugs, spiders and centipedes to reduce infestations. Spray thoroughly into hiding places such as cracks, crevices, moist areas, openings around pipes and sinks, under refrigerators, baseboards, and storage areas. Apply spray until area is moist, but not to the point of run-off. Spray directly on insects where possible. Repeat as necessary.

**ANTS:** Spray trails, nests and points of entry. Spray on ants where possible. Repeat as necessary.

**FLEAS:** Protect dogs and cats from fleas by spraying their resting areas. Hold spray nozzle about 18 inches from area to be treated. Apply spray at the rate of two seconds per linear foot. Direct spray on resting areas and floor around these areas. Treat bedding the same way. Also spray entire inside surface of dog houses. Repeat as necessary.

Also treat dogs and cats with a registered product before they re-enter the area just treated with this product.

**SPIDERS:** Direct short burst of spray on spiders and repeat as necessary.

**WASPS:** Application should be made in late evening when insects are at rest. Spray liberally into hiding and breeding places contacting as many insects as possible. Repeat as necessary.

# AQUA MIST INSECTICIDE SPRAY

#### Active Ingredients:

\* +, (3-Benzyl-3-furyl)methyl 2,2-dimethyl-3-(2-methylpropenyl)cyclopropane-carboxylate ..... 0.250% w/w  
Related compounds ..... 0.034%

Inert Ingredients: ..... 99.716%  
100.000% w/w

\* Cis/trans isomers ratio: max. 30% (±) cis and min. 70% (±) trans.

+ U.S. Patent No. 3,465,007

### USE ONLY AS DIRECTED

#### CAUTION

KEEP OUT OF REACH OF CHILDREN  
(See side panel for other precautions)

#### CAUTION

This product is toxic to fish and birds. Keep out of lakes, streams or ponds. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

#### CAUTION—HARMFUL IF SWALLOWED.

Avoid contamination of feed and foodstuffs. Remove pets, birds and cover fish aquariums before spraying. Do not use on edible crops.

**FOOD AREAS:** Do not use in edible products areas of food processing plants, restaurants or other areas while food is being commercially prepared or processed. Do not use in serving areas while food is exposed.

**CONTAINER DISPOSAL:** Do not reuse empty container. Destroy container by perforating or crushing, and bury in a safe place away from water.

STORE AT TEMPERATURES ABOVE 40°F.  
MIX WELL BEFORE USING.
