W910-47

DUAL "S" INDOOR-OUTDOOR INSECTICIDE

KILLS: House flies, mosquitoes, gnats, roaches, earwigs, two spotted mites, sowbugs, spiders, centipedes, ants, aphids (plant lice), leafhoppers, exposed thrips, adult whiteflies, plant bugs, Japanese beetles, spittle bugs.

Active Ingredients:

1,5-Benzylisobutyl-methyl-2,2-dimethyl-2-methylpropyl-pyrrolidone	29%	w/w
Permethrin	0.28%	w/w
Related compounds	0.28%	
1-Trans-Allyl-2-methyl-2-propyl-2-pyrrolidone	0.10%	
Related compound	0.10%	
Aromatic petroleum	0.10%	
Inert Ingredients	99.34%	w/w

Net Content: 1 Pound (16 Ounces)
EPA Reg. No. 11694-47
EPA Est. 11694 KS 1

WARNING

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid contamination of feed and foodstuffs. Remove birds, pets, and cover aquariums before spraying. Do not use on edible crops. Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product in these areas, apply only when the facility is not in operation.

WARNING: Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130° F. may cause bursting. Never throw container into fire or incinerator.

EPA Reg. No. 11694-47
EPA Est. 11694 KS 1

NET CONTENTS: 1 POUND

DIRECTIONS FOR USE

Shake well before each use. Remove protective cap. Aim spray opening away from person. Push button to spray.

INDOORS—CONTROL HOUSEHOLD PESTS:

for Houseflies, Mosquitoes, and Gnats: Close all doors and windows. Point nozzle upward, direct spray mist to all parts of the room, especially windows and other light sources which attract these insects. Fill the room with mist, then leave the treated area. Keep the room closed for at least 15 minutes, ventilate the room when treatment is completed.

For Crawling Insects: Roaches, earwigs, grain mites, sowbugs, spiders and centipedes. Spray thoroughly into hiding places such as cracks, crevices, moist areas, openings around pipes and sinks, under refrigerators, baseboards and storage areas. Spray directly on insects where possible.

Ants: Spray trails, nests and points of entry. Spray on ants where possible. Repeat as necessary.

OUTDOORS—TO REDUCE ANNOYANCE FROM SMALL FLYING INSECTS:

Reduce mosquitoes, gnats (midges), houseflies, pyralid and noctuid flying moths by spraying their resting areas. Follow precautions listed above. Hold container 18 to 24 inches from shrubs, bushes and grassy areas. Spray these areas with a slow sweeping motion at the rate of from 1 to 3 seconds per cubic yard of space while moving away from the treated areas. To reduce annoyance from these flying insects, treat open porches and patios in a similar manner. Spray only when the air is still. Allow spray to dissipate before re-ventilating the treated area. Repeat as necessary.

OUTDOORS—TO PROTECT ORNAMENTAL PLANTS:

Use indoors and outdoors to control thrips, adult whiteflies, leafhoppers, two spotted mites, and bugs (spittlebugs and Japanese beetle) on smaller ornamental plants, shrubs, hibiscus, geranium, poinsettia, begonia, coleus, impatiens, and geranium. Spray directly on insects. Hold container 18 to 24 inches from the treated plants. Spray in short spray bursts of one to three seconds. Spray at the rate of one quart per 100 square feet of growth per acre. Do not spray on plants with large amounts of foliage. Avoid heavy wetting. Repeat as necessary to maintain control.

Use indoors and outdoors to control thrips, adult whiteflies, leafhoppers, two spotted mites, and bugs (spittlebugs and Japanese beetle) on larger ornamental plants, shrubs, hibiscus, geranium, poinsettia, begonia, coleus, impatiens, and geranium. Spray directly on insects. Hold container 18 to 24 inches from the treated plants. Spray in short spray bursts of one to three seconds. Spray at the rate of one quart per 100 square feet of growth per acre. Do not spray on plants with large amounts of foliage. Avoid heavy wetting. Repeat as necessary to maintain control.

USE WITH CAUTION on azaleas, camellias, roses, and geraniums. These plants may be subject to leaf curl under certain conditions of use.

For adult whiteflies, thrips, and leafhoppers, be sure to direct spray to underside of leaves. Thoroughly cover the infested area. Use water to wash off spray if it is necessary.

PROTECT HOUSE PLANTS

Use indoors and outdoors to control thrips, adult whiteflies, leafhoppers, two spotted mites, and bugs (spittlebugs and Japanese beetle) on house plants. Spray directly on insects. Hold container 18 to 24 inches from the treated plants. Spray in short spray bursts of one to three seconds. Spray at the rate of one quart per 100 square feet of growth per acre. Do not spray on plants with large amounts of foliage. Avoid heavy wetting. Repeat as necessary to maintain control.
