DIRECTIONS

SHAKE BEFORE USE

KEEP UPRIGHT WHILE SPRAYING

To Kill Flies, Mosquitoes, Gnats, Wasps, Hornets, Sandflies, Small Flying Moths Close all doors and windows and direct spray upward into center of room with a slow sweeping motion. Spray 5 to 10 seconds for average room of 1000 cubic feet. Keep nozzle three feet from surfaces. Vacate premises. Keep room closed for 15 minutes after spraying. Ventilate room thoroughly before re-entry. Sweep up and destroy the fallen insects and repeat treatment as necessary.

To Kill Roaches, Waterbugs, Silverfish, Ants, Scorpions, Centipedes, Sowbugs, Spiders, Fleas Spray baseboards, cracks, crevices, moist areas and openings around sinks and pipes and other hiding places, hitting the insects directly. Spray ant hills and ant trails around windows and door sills and other locations. For fleas, thoroughly spray animal quarters and sleeping area. Repeat as necessary.

To Kill Clothes Moths Spray all areas to be protected, giving particular attention to folds and seams. Spray interior of storage containers such as closets, chests, and trunks regularly. Treatment should be repeated every thirty days unless the articles are stored in airtight container.

To Kill Bedbugs Spray mattresses, box springs, especially around seams and tufts. Spray bedstead, baseboards and floorboards. Repeat frequently.

CAUTION

KEEP OUT OF REACH OF CHILDREN Do not use in a food processing or preparation area. Foods should be removed or covered during treatment. Food processing surfaces should be covered during treatment or thoroughly cleaned before re-use. Do not treat when food processing is underway.

REMOVE pets, birds and livestock from area before spraying.
