

JUN 17 1991

Mr. David Jones
Dymon, Inc.
3401 Kansas Avenue
Kansas City, KS 66106

Subject: Resmethrin Standard
Double Action Liquid Insecticide
EPA Reg. No. 11694-82

Dear Mr. Jones:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records.

As new labels are prepared, make the following changes:

1. In the ingredient statement, change ACTIVE INGREDIENTS to the singular. In the cis/trans isomer ratio footnote, insert decimal points after max. and min.
2. Add a Physical or Chemical Hazards section under PRECAUTIONARY STATEMENTS to include the statement -Do not use this product in or on electrical equipment due to the possibility of shock hazard. You may delete the reference to electrical equipment under Directions for Use.
3. Ensure that your supplier of the perfume, C6862 has furnished its complete chemical composition, citing this pesticide by product name and registration number. The formula dated June 6, 1989 is acceptable and has been included in our files for this product.
4. Add - In hospitals, remove patients before treating rooms. Ventilate for 2 hours after treatment before returning patients.

Sincerely,

Richard F. Mountfort
Product Manager (10)
Insecticide-Rodenticide Branch
Registration Division (H7505C)

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION;**

Harmful if swallowed or absorbed through intact skin. Avoid breathing of vapors or spray mist. Avoid contact with skin and eyes. Do not apply directly to food in commercial food handling facilities. Remove or cover food and processing equipment during application. Do not apply while food processing is underway. After spraying in plants, bakeries, and other food processing plants, wash all equipment, benches, etc., where exposed food will be handled with an effective cleaning compound followed by a potable water rinse. Remove pets, birds, and cover fish aquariums before spraying.

ENVIRONMENTALLY HAZARDOUS

This pesticide is highly toxic to fish. Do not apply directly to water or wetlands (swamps, bogs, marshes, and potholes). Drift and runoff from treated sites may be hazardous to fish in adjacent waters. Do not contaminate water when disposing of equipment washwaters.

STORAGE AND DISPOSAL

Storage: Keep containers tightly sealed when not in use. Store containers indoors in a dry area out of direct sunlight. Protect against freezing. Use from original container only. Do not store in edible areas of food processing plants, restaurants or other areas where food is commercial prepared or processed.

Do not use in service areas where food is exposed.

Pesticide Disposal: Do not contaminate water, food, or feed by storage or disposal. Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Triple rinse (or equivalent), then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke. Do not reuse empty container.

STATEMENT OF PRACTICAL TREATMENT

If Swallowed: Induce vomiting by sticking finger in back of throat or by administration of syrup of ipecac. Get immediate medical attention.

If Inhaled: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen.

If On Skin: Wash thoroughly with soap and water while removing contaminated clothing and shoes. Wash clothing before reuse. If skin irritation arises and persists, contact a physician.

If In Eyes: Flush with plenty of water for at least 15 minutes. Contact a physician immediately.
