

IMPORTANT

Read the entire Directions for Use and the Conditions of Sale and Warranty before using this product

CONDITIONS OF SALE AND WARRANTY

Because weather and other conditions under which this product may be used will vary, the seller makes no warranty of any kind, expressed or implied, concerning the use of this product other than indicated on the label.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION

Harmful if swallowed. Avoid contact with eyes and skin. Avoid inhalation of spray mist. Avoid contamination of food and feed.

First Aid

In case of skin contact, wash with soap and water. In case of eye contact, flush eyes with plenty of water. Get medical attention if irritation persists.

Environmental Hazards

Do not contaminate water used for irrigation or domestic purposes. Keep out of lakes, streams, or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Physical or Chemical Hazards

Do not use, pour, spill, or store near heat or open flame.

VEGETATION KILLER

FOR BARE GROUND
WEED CONTROL AROUND:

- Guard Rails
- Military Installations
- Pipelines
- Lumberyards
- Rights-of-way
- Storage Areas
- Pumps
- Fuel Tanks
- Recreational Areas
- Airports
- Highway Medians
- Railroads
- Buildings
- Fences
- Machinery
- Drainage Ditch Banks
- Roadways, etc.

ACTIVE INGREDIENTS:

Prometon: 2,4-bis (isopropylamino)-6-methoxy-s-triazine	3.73%
Petroleum distillate	81.04%

INERT INGREDIENTS	15.23%
	100.00%

CAUTION

KEEP OUT OF REACH OF CHILDREN

See side panel for further precautionary statements

EPA Reg. No. 11694-86

EPA Est. No. 11694-KS-1

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Uniformly spray one gallon of VEGETATION KILLER mixed in ten gallons of water over 1,000 sq. ft. of soil surface. Thoroughly wet all foliage to insure contact action. Best results are obtained when applications are made during or after weed emergence while growth is succulent. Where vegetation is tall and dense, use 1 1/2 gallons of VEGETATION KILLER in ten gallons of water per 1,000 sq. ft. For control of hard-to-kill perennial weeds and grasses such as johnson-grass, bindweed and wild carrot, use 3-4 1/2 gallons per 1,000 sq. ft. Although VEGETATION KILLER has considerable activity through foliar contact, much of its activity is through the roots and therefore, adequate rainfall to move the chemical into the roots zone is necessary. Under conditions where the rainfall is high and the growing season long, a second application may be necessary to maintain a weed-free soil surface. Care must be taken to keep this herbicide away over roots of valuable trees or woody ornamental plants. Only apply herbicide outside the drip line of trees. Avoid spray drift to desirable plants.

STORAGE AND DISPOSAL

Prohibitions: Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited.

Pesticide Disposal: Pesticide, spray mixture or rinsate that cannot be used or chemically processed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies.

Container Disposal: 1. Reseal container and offer for reconditioning or 2. Triple rinse (or equivalent) and offer for recycling, reconditioning or disposal in approved landfill or bury in a safe place.

General: Consult federal, state or local disposal authorities for approved alternative procedures.
