MAY 3 1989

Attention: David Jones

Gentlemen:

Subject: Do It All Germicidal Foaming Cleaner
EPA Registration No. 11694-88
Your Submission Dated March 8, 1988
EPA Received Date March 28, 1988

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable provided that you:

1. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling.
 - a. Delete the word "milk."
 - b. On the center panel, the statement "Keep Out of Reach of Children" must be placed directly above the signal word "Warning."
 - c. Revise the ingredient statement format to read as follows:

ACTIVE INGREDIENTS:
 Name of Ingredient _____
 Name of Ingredient _____
 INERT INGREDIENTS: _____

2. Submit five (5) copies of your final printed labeling before you release the product for shipment.

DIRECTIONS

Disinfection, Cleaning, and Deodorization: For general cleaning and disinfection of hard surfaces such as bathroom tiles, toilet bowls, bathtubs, proceed as indicated:
1. Pour contents into a clean spray bottle.
2. Hold container six to eight inches from surface.
3. Spray area until it is covered with foam. Allow foam to penetrate and remain wet for 10 minutes.
4. Wipe off with a clean cloth. Do not leave grill or soap scum.
Preclean all surfaces prior to disinfection. For general cleaning and disinfection of hard surfaces such as floors, walls, ceilings, and fixtures, proceed as indicated:
1. Pour contents into a clean spray bottle.
2. Hold container six to eight inches from surface.
3. Spray area until it is covered with foam. Allow foam to penetrate and remain wet for 10 minutes.
4. Wipe off with a clean cloth. Do not leave grill or soap scum.
Disinfection of Hospital and Institutional Surfaces: For disinfection of hospital and institutional surfaces, proceed as indicated:
1. Pour contents into a clean spray bottle.
2. Hold container six to eight inches from surface.
3. Spray area until it is covered with foam. Allow foam to penetrate and remain wet for 10 minutes.
4. Wipe off with a clean cloth. Do not leave grill or soap scum.
Disinfection of Herpes Simplex Virus Type I & II and Influenza A2 (Hong Kong) Virus: For disinfection of Herpes Simplex Virus Type I & II and Influenza A2 (Hong Kong) Virus, proceed as indicated:
1. Pour contents into a clean spray bottle.
2. Hold container six to eight inches from surface.
3. Spray area until it is covered with foam. Allow foam to penetrate and remain wet for 10 minutes.
4. Wipe off with a clean cloth. Do not leave grill or soap scum.

Mildewstat: To control and prevent mold on porous surfaces (such as floors, walls, ceilings, and fixtures) to be treated, making sure to ventilate the area and apply application at weekly intervals or as needed.

Heavy Fungicidal: Against Penicillium, Aspergillus, and other fungi when used as directed on hard surfaces such as walls, ceilings, and fixtures commonly contacted by bare feet.

Virucidal: Against Herpes Simplex Virus Type I & II and Influenza A2 (Hong Kong) Virus.
