

INSECT CONTROL IN RESEARCH FACILITIES
The use in and around research animal quarters for insect control will not induce changes in liver microsomal enzyme activity in these animals.

STORAGE AND DISPOSAL

Prohibitions: Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited.

Pesticide Disposal: Pesticide spray mixture or rinse that cannot be used according to label instructions must be disposed of according to Federal, State or local procedures under the Resource Conservation and Recovery Act.

Container Disposal: Triple rinse (or equivalent) and offer for recycling, or dispose of in a sanitary landfill, or by other approved State or local procedures.

General: Consult federal, state or local disposal authorities for approved alternative procedures.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

May be harmful if swallowed, inhaled or absorbed through the skin. Do not get in eyes, on skin or on clothing. Avoid breathing spray mist. Wash all contaminated clothing with soap and hot water before re-use. Do not use as a space spray. Provide adequate ventilation of area being treated. Do not allow children to contact treated areas until surfaces are thoroughly dry. Do not store near food or food products. Avoid contamination of feed, food, food processing equipment, and food handling surfaces. Do not apply to animals. Remove pets and cover fish bowls before spraying. Do not reuse empty drum. Return to drum reconditioner or destroy by perforating or crushing and burying in a safe place away from water supplies.

CAUTION

MAY BE HARMFUL IF SWALLOWED, INHALED OR ABSORBED THROUGH THE SKIN. DO NOT GET IN EYES, ON SKIN OR ON CLOTHING. AVOID BREATHING SPRAY MIST. WASH ALL CONTAMINATED CLOTHING WITH SOAP AND HOT WATER BEFORE RE-USE.

STATEMENT OF PRACTICAL TREATMENT

If swallowed: Do not induce vomiting because of possible hazard. Call a physician immediately.

If on skin: Wash thoroughly with soap and warm water.

If in eyes: Flush with plenty of water for at least 15 min.

NOTE TO PHYSICIAN: Antipyrine sulfate is active.

Environmental Hazards

This product is toxic to birds and wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Chemical Hazards

FLAMMABLE Keep away from heat or open flame.

**BAYSECT
RESIDUAL SPRAY INSECTICIDE**

CONTAINS BAYGON®
**FOR PROFESSIONAL, INDUSTRIAL
AND INSTITUTIONAL USE**

A highly effective ready-to-use formulation for control of 1 insects listed below, including those resistant to certain chlorinated hydrocarbon and phosphate insecticides. This product drives insects from their hiding places, gives residual control a rapid kill of insects specified below.

ACTIVE INGREDIENTS

2-(1-Methylethoxy) phenyl methylcarbamate 1.00%
Heavy Aromatic Naphtha 10.00%
Kerosene 80.00%

INERT INGREDIENTS 9.00%

TOTAL 100.00%

BAYGON® is the registered trademark of the Parent Co. of Farbenfabriken Bayer GmbH, Leverkusen.

KILLS: Ants, Brown Dog Ticks, Centipedes, Cockroaches, Clover Mites, Crickets, Earwigs, Firebrats, Fleas, Flies, Gnats, Millipedes, Mosquitoes, Paperlice, Punkies, Sandflies, Scorpions, Silverfish, Sowbugs and Spiders, Exposed stages of Caddisflies, Cigarette Beetles, Drugstore Beetles, Indian Meal Moths, Mediterranean Flour Moths, Red Flour Beetles, and Saw-toothed Grain Beetles.

CAUTION:

KEEP OUT OF REACH OF CHILDREN

FLAMMABLE

KEEP AWAY FROM HEAT OR OPEN FLAME

SEE OTHER CAUTIONS ON THE SIDE PANEL

*U.S. Patent No. 3,111,539

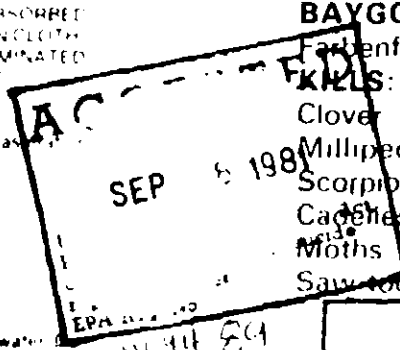

Canadian Patent No. 725,204

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL: For use in and around buildings, dwelling units and other structures. Apply with a low pressure sprayer equipped with a spray nozzle. Spray surfaces only, not wet. Avoid contact with skin. Apply to insect breeding sites and harborage. Do not be used on food surfaces. Avoid contact with adjacent exposed surfaces where insects may crawl when they come out of hiding. Repeat treatment as necessary.

COCKROACHES: Thoroughly treat the infested area. Spray baseboards, cracks and crevices, under and around door frames, under surfaces of shelves, drawers and work tables, behind and beneath cabinets, refrigerators, stoves and stoves, in and around waste containers, water cooler and sink areas and floor drains.

ANTS: Apply to trails and points where ants enter premises. Spray under and around door frames, cracks and crevices, etc.

CADLLES, CIGARETTE BEETLES, DRUGSTORE BEETLES, INDIAN MEAL MOTHS, MEDITERRANEAN FLOUR MOTHS, RED FLOUR BEETLES, SAW-TOOTHED GRAIN BEETLES (EXPOSED STAGES): Thoroughly treat the infested area with attention to cracks and crevices, under and around door frames, under surfaces of shelves, drawers and work tables, behind and beneath cabinets, refrigerators, stoves and stoves, in and around waste containers, water cooler and sink areas and floor drains.

SILVERFISH, FIREBRATS AND PAPERLICE: Apply to the infested area. Thoroughly treat the infested area with attention to cracks and crevices, under and around door frames, under surfaces of shelves, drawers and work tables, behind and beneath cabinets, refrigerators, stoves and stoves, in and around waste containers, water cooler and sink areas and floor drains.

BROWN DOG TICKS: Spray step, quarters, etc., in and around the infested area. Thoroughly treat the infested area with attention to cracks and crevices, under and around door frames, under surfaces of shelves, drawers and work tables, behind and beneath cabinets, refrigerators, stoves and stoves, in and around waste containers, water cooler and sink areas and floor drains.

CLOVER MITES, CRICKETS, EAWIGS, MILLIPEDES, CENTIPEDES, SOWBUGS, SCORPIONS AND SPIDERS: Thoroughly treat the infested area with attention to cracks and crevices, under and around door frames, under surfaces of shelves, drawers and work tables, behind and beneath cabinets, refrigerators, stoves and stoves, in and around waste containers, water cooler and sink areas and floor drains.

FLEAS, GNATS, MOSQUITOES, PUNKIES AND SANDFLIES: (Outdoors only) - Apply to the infested area with attention to cracks and crevices, under and around door frames, under surfaces of shelves, drawers and work tables, behind and beneath cabinets, refrigerators, stoves and stoves, in and around waste containers, water cooler and sink areas and floor drains.

NON FOOD AREAS: Apply to the infested area with attention to cracks and crevices, under and around door frames, under surfaces of shelves, drawers and work tables, behind and beneath cabinets, refrigerators, stoves and stoves, in and around waste containers, water cooler and sink areas and floor drains.

Apply to the infested area with attention to cracks and crevices, under and around door frames, under surfaces of shelves, drawers and work tables, behind and beneath cabinets, refrigerators, stoves and stoves, in and around waste containers, water cooler and sink areas and floor drains.

Apply to the infested area with attention to cracks and crevices, under and around door frames, under surfaces of shelves, drawers and work tables, behind and beneath cabinets, refrigerators, stoves and stoves, in and around waste containers, water cooler and sink areas and floor drains.

Apply to the infested area with attention to cracks and crevices, under and around door frames, under surfaces of shelves, drawers and work tables, behind and beneath cabinets, refrigerators, stoves and stoves, in and around waste containers, water cooler and sink areas and floor drains.

Apply to the infested area with attention to cracks and crevices, under and around door frames, under surfaces of shelves, drawers and work tables, behind and beneath cabinets, refrigerators, stoves and stoves, in and around waste containers, water cooler and sink areas and floor drains.

Apply to the infested area with attention to cracks and crevices, under and around door frames, under surfaces of shelves, drawers and work tables, behind and beneath cabinets, refrigerators, stoves and stoves, in and around waste containers, water cooler and sink areas and floor drains.

Apply to the infested area with attention to cracks and crevices, under and around door frames, under surfaces of shelves, drawers and work tables, behind and beneath cabinets, refrigerators, stoves and stoves, in and around waste containers, water cooler and sink areas and floor drains.

Apply to the infested area with attention to cracks and crevices, under and around door frames, under surfaces of shelves, drawers and work tables, behind and beneath cabinets, refrigerators, stoves and stoves, in and around waste containers, water cooler and sink areas and floor drains.

Apply to the infested area with attention to cracks and crevices, under and around door frames, under surfaces of shelves, drawers and work tables, behind and beneath cabinets, refrigerators, stoves and stoves, in and around waste containers, water cooler and sink areas and floor drains.

Apply to the infested area with attention to cracks and crevices, under and around door frames, under surfaces of shelves, drawers and work tables, behind and beneath cabinets, refrigerators, stoves and stoves, in and around waste containers, water cooler and sink areas and floor drains.

Apply to the infested area with attention to cracks and crevices, under and around door frames, under surfaces of shelves, drawers and work tables, behind and beneath cabinets, refrigerators, stoves and stoves, in and around waste containers, water cooler and sink areas and floor drains.

Apply to the infested area with attention to cracks and crevices, under and around door frames, under surfaces of shelves, drawers and work tables, behind and beneath cabinets, refrigerators, stoves and stoves, in and around waste containers, water cooler and sink areas and floor drains.

Apply to the infested area with attention to cracks and crevices, under and around door frames, under surfaces of shelves, drawers and work tables, behind and beneath cabinets, refrigerators, stoves and stoves, in and around waste containers, water cooler and sink areas and floor drains.

Apply to the infested area with attention to cracks and crevices, under and around door frames, under surfaces of shelves, drawers and work tables, behind and beneath cabinets, refrigerators, stoves and stoves, in and around waste containers, water cooler and sink areas and floor drains.

Apply to the infested area with attention to cracks and crevices, under and around door frames, under surfaces of shelves, drawers and work tables, behind and beneath cabinets, refrigerators, stoves and stoves, in and around waste containers, water cooler and sink areas and floor drains.

Apply to the infested area with attention to cracks and crevices, under and around door frames, under surfaces of shelves, drawers and work tables, behind and beneath cabinets, refrigerators, stoves and stoves, in and around waste containers, water cooler and sink areas and floor drains.

Apply to the infested area with attention to cracks and crevices, under and around door frames, under surfaces of shelves, drawers and work tables, behind and beneath cabinets, refrigerators, stoves and stoves, in and around waste containers, water cooler and sink areas and floor drains.

Apply to the infested area with attention to cracks and crevices, under and around door frames, under surfaces of shelves, drawers and work tables, behind and beneath cabinets, refrigerators, stoves and stoves, in and around waste containers, water cooler and sink areas and floor drains.

Apply to the infested area with attention to cracks and crevices, under and around door frames, under surfaces of shelves, drawers and work tables, behind and beneath cabinets, refrigerators, stoves and stoves, in and around waste containers, water cooler and sink areas and floor drains.
