RUSTROL

FORMULA 219B ALGAE BAGS

COMPOSITION

ACTIVE INGREDIENTS	90% by weight
Sodium pentachlorophenate	79%
Sodium salts of other chlorophenates . . .	11%
INERT INGREDIENTS	10% " "
Weight per cubic foot of pellets	55 pounds
Weight of active ingredients per bag	4.5 pounds

APPLICATION

RUSTROL Formula 219 is used in industrial, commercial and institutional recirculating cooling water towers to control the growth of algae and fungi. Begin treatment when the system is in jeopardy of becoming affected or after cleaning a system whose efficiency is already impaired. Badly fouled systems must be cleaned before treatment is begun. Apply at a point in the system where the product will be uniformly mixed.

For intermittent feeding, an initial dose of 0.37 to 0.74 pounds of RUSTROL Formula 219B per 1000 gallons of water in the system is used. Repeat until control is achieved. When microbial control is evident, add 0.185 to 0.37 pounds of RUSTROL Formula 219B per 1000 gallons of water in the system every 2 to 5 days, or as needed to maintain control.

WARNING

KEEP OUT OF REACH OF CHILDREN

Harmful if inhaled or swallowed. Causes skin irritation. Injurious to eyes. Absorbed through skin from solution.

Do not breathe dust or spray mist. Wear rubber gloves and goggles. Wash thoroughly after handling. In case of contact with dry material or its solution, wash skin at once with plenty of soap and warm water; for eyes, flush with plenty of water for at least 15 minutes and get medical attention. Remove and wash clothing before reuse.

If swallowed, induce vomiting. Call a physician.

NOTE TO PHYSICIAN: This product is a metabolic stimulant, causes hyperthermia. Treat symptomatically.

Do not reuse empty container. Destroy when empty.

This product is toxic to fish and wildlife. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public water. Apply this product only as specified on this label.
