Mr. T. David Williams, J.D. Speer Products, Incorporated 4242 B.F. Goodrich Boulevard P.O. Box 18993 Memphis. TN 38181-1950

Dear Mr. Williams:

Subject:

Pri

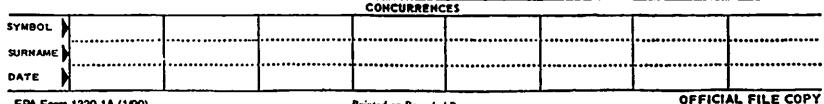

Revised Labeling

Speer Home & Garden Insect Spray EPA Registration Number 11715-4 Submission dated May 15, 1992

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act. as amended, is acceptable subject to the comments listed below. Submit one (1) copy of the final printed label prior to releasing the product for shipment.

- Delete the term "related compounds" from the label ingredients declaration. Unless otherwise substantiated, these isomers should be considered inert compounds. If the "related compounds" are determined to have pesticidal activity, they should be incorporated into the declaration for the active ingredient, and not distinguished separately as "related compounds" or "other isomers".
- 2. Delete the statement "**Contains petroleum distillate" from the product label. This statement is not appropriate for products which do not contain a significant amount of petroleum distillates in the product formulation.
- Revise the If swallowed section of the STATEMENT OF PRACTICAL TREATMENT to read as follows:

If swallowed: Contact a physician or Poison Control Center immediately.

EPA Form 1320-1A (1/90)

Printed on Recycled Paper

*U.S. Government Printing Office: 1992 — 620-856/40872

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

4. Revise the Environmental Hazards text to read as follows:

This pesticide is highly toxic to fish. Do not apply directly to water. Drift and runoff from treated sites may be hazardous to fish in adjacent waters. Do not use on edible crops.

5. Submit a current Confidential Statement of Formula which includes all of the pertinent information including the pH (using the product as formulated without the propellent) and the bulk density (or pounds per gallon).

Sincerely,

Richard F. Mountfort
