AUG 25 2003

SUBJECT: Label Amendment per PR Notices 2001-1 and 2001-6
SPEER Indoor-Outdoor Insect Spray (with .35% SBP-1382)
EPA Reg. No. 11715-7
Your Application Dated February 11, 2003

Dear Mr. Washburn:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable provided that you make the following label changes.

1. In the pest list underneath the product name, correct the spelling of "Mosquitoes".
2. Under **ACTIVE INGREDIENTS**: You may choose to use only the ANSI name "Resmethrin" and delete the rest of the chemical name or correct the nomenclature to read: "Resmethrin [5-phenylmethyl]-3-furanyl)methyl 2,2-dimethyl-3-(2-methyl-1-propenyl)cyclopropanecarboxylate)".
3. Make "Active Ingredient" singular since there is only one active ingredient in the product.
4. According to the Confidential Statement of Formula dated October 23, 1989, this product does not contain any petroleum distillates. If this is correct, then delete the statement "***Contains petroleum distillates" from the label.
5. In the **STORAGE AND DISPOSAL** box, include the statement "Do not contaminate water, food, or feed by storage or disposal" under the heading.

You **must** submit two (2) final printed labels before you release the product for shipment. A stamped copy is enclosed for your records.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Linda G. Arrington".

Linda G. Arrington
Acting Product Manager 10
Registration Division (7505C)

SPEER INDOOR- OUTDOOR INSECT SPRAY

(with .35% SBP-1382)

For Flying and Crawling Pests inside and out.

Kills Houseflies, Mosquitoes, Gnats, Wasps, Roaches, Ants, Spiders, Aphids, Exposed Thrips, Adult Whiteflies, Leafhoppers, Plant Bugs, Japanese Beetles, and Mimosa Webworm Larvae.

NET WEIGHT: _____ OZ.

EPA Reg. No. 11715-07
EPA Est. No. 11715-TN-1

ACCEPTED
with COMMENTS
In EPA Letter Dated:
AUG 25 2003

Under the Federal Insecticide,
Fungicide, and Rodenticide Act,
as amended, for the pesticide
registered under EPA Reg. No.
11715-07

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION

Harmful if swallowed. Avoid contact with skin or eyes. Remove all pets from area to be treated. Avoid contamination of food and feedstuff. Foods should be removed or covered in such a way as to prevent contamination before treatment. All food processing surfaces and equipment should be washed with an effective cleaning compound followed by a potable water rinse. When using this product in these areas, apply only when the facility is not in operation.

FIRST AID	
IF SWALLOWED:	<ul style="list-style-type: none"> Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
IF ON SKIN OR CLOTHING:	<ul style="list-style-type: none"> Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES:	<ul style="list-style-type: none"> Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
IF INHALED:	<ul style="list-style-type: none"> Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.
HOT LINE NUMBER	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-877-757-4943 for emergency medical treatment information.	

ENVIRONMENTAL HAZARDS

This pesticide is highly toxic to fish. Do not apply directly to water. Drift and runoff from treated sites may be hazardous to fish in adjacent waters.

PHYSICAL HAZARDS

Contents under pressure. Do not use or store near heat, sparks, or flame. Do not puncture or incinerate container. Exposure to temperatures above 130° F. may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USE

Remove protective cap. Aim spray opening away from people. Push button to spray.

Indoor-For Houseflies, Mosquitoes, & Gnats:

Close all doors and windows. Point nozzle upward to direct the spray mist to all parts of the room, especially windows and other light sources, which attract these insects. Fill the room with mist; then leave the treated area. Keep the room closed for at least 15 minutes. Ventilate the room when treatment is completed.

Wasps: Application should be made in late evening when insects are at rest. Spray liberally into hiding and breeding places contacting as many insects as possible. Repeat as necessary.

Indoors-For Crawling Insects: Roaches, earwigs, grain mites, sowbugs, spiders, and centipedes:

Spray thoroughly into hiding places such as cracks, crevices, moist areas, openings around pipes and sinks, under refrigerators, baseboards and storage areas. Spray directly on insects where possible. Repeat as necessary.

Ants: Spray trails, nests and points of entry. Spray on ants where possible. Repeat as necessary.

Outdoors-To Kill Flying Insects: Control mosquitoes, gnats (midges), houseflies, biting flies and certain flying moths by spraying their resting areas. Follow precautions listed above. Hold container 18 to 24 inches from shrubs, bushes and grassy areas. Spray these areas with a slow sweeping motion at the rate of from 1 to 3 seconds per cubic yard of space while moving away from the treated areas. To reduce annoyance from these flying insects, treat open porches and patios in a similar manner. Spray only when the air is still. Allow spray to dissipate before occupying the treated area. Repeat as necessary.

Outdoors-To Control Ornamental Plant Pests: Aphids, exposed thrips, adult whiteflies, leafhoppers, plant bugs, spittlebugs, Japanese beetles, spiders and mimosa webworm larvae: Spray directly on insects by holding the container 12 to 18 inches from the infested plants. Spray in short bursts of one to three seconds over one linear foot of plant foliage. Direct spray to all sides, covering foliage until slightly moist. Avoid heavy wetting.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry area away from heat or open flame.

DISPOSAL: Do Not Puncture or Incinerate! **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.

[Distributors may chose to use their own emergency numbers and times of operation]
