PREVENTION, PESTICIDES AND
TOXIC SUBSTANCES

AUG 25 2003

Mr. William L. Washburn
SPEER Products, Inc.
P.O. Box 18993
Memphis, TN 38118-0993

SUBJECT: Label Amendment per PR Notices 2001-1 and 2001-6
SPEER PY-1 Insect Killer
EPA Reg. No.11715-15
Your Application Dated February 11, 2003

Dear Mr. Washburn:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable subject to the comments below:

1. In the FIRST AID box:

a. Revise "IF SWALLOWED" to read:

IF SWALLOWED: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person

However, if you have data to show there is a benefit in drinking water or milk, after ingesting your product, you may submit an alternate wording via amendment.

b Add the statement "NOTE TO PHYSICIAN:" Contains petroleum distillate-vomiting may cause aspiration pneumonia."

2. In the STORAGE AND DISPOSAL box, include the statement "Do not contaminate water, food, or feed by storage or disposal under the heading.

You must submit two (2) final printed labels before you release the product for shipment.
A stamped copy is enclosed for your records.

Sincerely yours,

Linda G. Arrington
Acting Product Manager 10
Registration Division (7505C)

Enclosure

SPEER PY-1 INSECT KILLER

EPA Est. No. 11715-TN-1

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION

Avoid inhalation of spray mist. Avoid dermal contact. In case of skin contact, wash with soap and water. Avoid contamination of food. In food processing facilities, cover or remove all benches, shelving, food-contact surfaces, utensils, etc. prior to treatment or wash with an effective cleaning compound followed by a potable water rinse prior to use. Food should be removed or protected during treatment. Do not spray on skin of animals. Remove any cold blooded animals, birds, pets, and fish from area being treated. Use in food processing plants only when plant is not in operation.

FIRST AID	
IF INHALED:	<ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. • Call a poison control center or doctor for further treatment advice.
IF ON SKIN OR CLOTHING:	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.

**ACCEPTED
with COMMENTS
In EPA Letter Dated:
AUG 25 2003**

Under the Federal Insecticide,
Fungicide, and Rodenticide Act,
as amended, for the pesticide
registered under EPA Reg. No.

11715-15

IF SWALLOWED:	<ul style="list-style-type: none"> • Call poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by the poison control center or doctor. • Do not give anything by mouth to an unconscious person.
IF IN EYES:	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
HOT LINE NUMBER Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-877-757-4943 for emergency medical treatment information.	

PHYSICAL HAZARDS

Contents under pressure. Do not use or store near heat, sparks, or flame. Do not puncture or incinerate container. Exposure to temperatures above 130° F. may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Restaurants, Homes, Food Packaging and Food Processing Plants: For control of flies, mosquitoes, gnats and small flying moths, fill the room with spray mist. Direct spray toward all parts of room and especially windows or light source which attracts these insects. Do not remain

file

in treated areas, ventilate the area after treatment is completed. Repeat as necessary.

Dairy Farms, Stables, Hog Houses: For the control of flies, gnats, and mosquitoes apply at the rate of seven seconds for each 1,000 cubic feet. Best time to apply is when stock is not in barn. Repeat as necessary.

Directions: If possible close space to be treated. Release three feet from any surface, holding the dispenser above the head. Moving the dispenser about while spraying aids in dispersion. Dispense only for time indicated. USE SPARINGLY. Seven seconds of spraying is ample for each 1,000 cubic feet (10' x 10' x 10'). Not necessary to spray directly on insects but merely release in the air since the spray mist will disperse throughout the enclosed area. Temporarily effective in sheltered outdoor area.

STORAGE AND DISPOSAL

STORAGE: Store in a cool area away from heat or open flame.

DISPOSAL: Do Not Puncture or Incinerate! **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.

[Distributors may chose to use their own emergency numbers and times of operation]
