Dear Mr. Chapman:

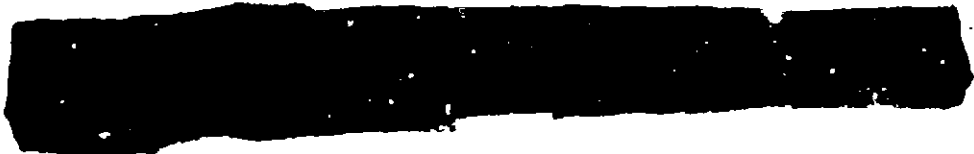

Subject: Amendment - Revised Labeling  
Speer Professional Formulation Diazinon Bug Killer  
EPA Registration No. 11715-16  
Your Letter Dated August 25, 1986

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable provided that you make the labeling changes listed below before you release the product for shipment bearing the amended labeling.

1. Delete "Professional" in the brand name. Words or phrases implying that a product possesses unique characteristics because of its composition are not acceptable.
2. Delete "resistant" in the statement "Guaranteed to kill resistant . . . ." You may retain that adjective provided you name the nature of resistance, e.g., dichlorvos resistant. This must be supported with appropriate data.
3. Diazinon is now an acceptable common name and no longer a trademark. Precede the active ingredient with Diazinon. Place the chemical name in square brackets and uppercase Diethyl.

86486:Newkirk:LR-8:KENCO:3/27/87:1/7/87:dej:JH:dej  
R:92701:Newkirk:LR-8:KENCO:4/1/87:UNCL:AR:R:ES:jp

SYMBOL	ORIGINATOR							
SURNAME	Newkirk							
DATE	4-2-87							

4. 
5. Add an asterisk to INERT INGREDIENTS\* and a footnote "\*\*Contains Petroleum distillates."
6. The total of active and inert ingredients exceeds 100%. Please correct.
7. Delete footnote "\*\*Diazinon Trademark of . . . ." (see number 3 above).
8. A Statement of Practical Treatment must be added to the labeling. We suggest the following statement; however, if your toxicology data suggest otherwise, please submit a draft Statement of Practical Treatment for prior approval:
- If Swallowed - Call a physician or Poison Control Center immediately. DO NOT INDUCE VOMITING. Vomiting may cause aspiration pneumonia.
  - If Inhaled - Remove victim to fresh air. Apply artificial respiration if indicated.
  - If On Skin - Remove contaminated clothing and wash affected areas with soap and water.
  - If In Eyes - Flush eyes with plenty of water. Call a physician immediately.
9. Add Note to Physician: Diazinon is an organophosphate insecticide. If symptoms of cholinesterase inhibition are present, atropine sulfate by injection is antidotal. 2-PAM is also antidotal and may be administered, but only in conjunction with atropine.

**PRECAUTIONARY STATEMENTS  
 HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION**

Harmful if swallowed. Avoid inhalation, clothing contact; wash thoroughly after use on household pets or humans. Do not use on treated areas until surfaces are dry. Avoid contamination of food or foodstuffs in treated areas of food processing plants, or other areas where food is compared or proceed. Do not use in serving areas exposed.

**PHYSICAL OR CHEMICAL HAZARDS**

**FLAMMABLE.** Contents under pressure. Store near heat or open flame. Do not incinerate container. Exposure to temperature 130 F may cause bursting.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**Storage and Disposal**

Do not contaminate water, food, or feed with spray. Dispose of contents and container as directed. Do not reuse or refill this container.

**STORAGE:** Store in a cool, dry area away from heat and open flame.

**DISPOSAL:** Replace cap and discard contents. Do not incinerate or puncture.

**To Operate:** Remove cap, hold can upright, opening away from person, and spray into area only until wet, holding can about 12 inches from surface being sprayed.

**To Kill Roaches, Water Bugs, Silverfish, Crickets:** Spray heavily into all cracks, crevices, and other places where these insects hide. Spray until wet, surfaces behind and beneath refrigerators, sinks, stoves, etc. Spray areas infested with these pests. Repairs may be required.

**To Kill Ants:** Follow the above directions. Observe ant trails, spraying these thorough and hills outdoors and spray opening thorough as necessary.

**To Kill Flies, Mosquitoes, Wasps:** Outdoor use only as an aid in reducing annoying insects. Spray on surfaces of screen, frames, or wherever these insects may be. Also treat surfaces around light fixtures, garages, and other places where these insects congregate.
