

PMIC Reg. No. 11715-26 11

Directions for Use

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Spray outdoor areas of the yard and patio when there is no breeze or spraying in the direction of a slight breeze. Controls flies, mosquitoes and gnats up to 12 feet away, using this fog nozzle.

SHAKE WELL BEFORE USING

Point spray nozzle away from the face and in the direction of the space to be treated. Press down valve button and allow spray fog to fill the air where flying pests linger. For larger areas, best results are obtained by spraying in the direction of a slight breeze that allows the fog to drift into the areas of infestation. Spray while moving away from treated areas. Allow spray to dissipate before occupying the treated area. Repeat as necessary.

FLYING INSECTS - Reduce annoyance from flies, mosquitoes, moths and gnats by directing spray from a distance of 4 to 6 feet from flowering plants, shrubbery and grass to where the insects may be resting. Avoid heavy wetting of plant foliage. Also spray around garbage cans and other breeding areas. Repeat as necessary.

Spray directly on wasps and hornets. Thoroughly wet the nesting area during the evening when these insects are least active.

CRAWLING INSECTS - Spray directly on ants, centipedes, sowbugs, and spiders. Treat around garbage cans, and other areas infested by these pests. Also thoroughly spray ant hills for best results. Spray in short bursts of 2 seconds at a distance of 4 to 6 feet for control of Brown Recluse Spider and Black Widow Spider. Repeat application as necessary.

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in a cool area away from heat or open flame.

Disposal: Replace cap and discard in trash. Do not puncture or incinerate.

PRECAUTIONARY STATEMENT Hazards to Humans and Domestic Animals CAUTION

Avoid breathing spray mist. Avoid contact with skin. Allow spray to disperse for several minutes before entering the treated area. Harmful if swallowed. Not for

indoor use. Cover food before spraying. Direct spray away from people and animals. Avoid smoking while spraying.

While spraying for flying insects outdoors, hold container 4 to 6 feet away from plants and shrubs. Direct spray to fill the air around these plants without heavy wetting of plant foliage. Do not spray food crops.

Physical and Chemical Hazards

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperature above 130 F may cause bursting.

Environmental Hazards

This pesticide is highly toxic to fish. Do not apply directly to water. Drift and run off from treated sites may be hazardous to fish in adjacent waters.

STATEMENT OF PRACTICAL TREATMENT

If swallowed: Call a physician or Poison Control Center.

If in eyes: Flush with plenty of water. Get medical attention if irritation persists.

If on skin: Wash with soap and plenty of water. Get medical attention if irritation persists.

SPEER YARD & PATIO FOGGER

Sprays Up to 12 Feet
Contains SBP-1382

Kills Flies, Mosquitoes, Gnats and Ants
For Outdoor Use in Yards and Patios

Ready to use to kill flies, mosquitoes, moths, gnats, wasps, hornets, ants, spiders, centipedes, and sowbugs.

SHAKE WELL BEFORE USING

ACTIVE INGREDIENTS:

Resmethrin +*(5-Benzyl-3-furyl)methyl
2,2-dimethyl-3-(2-methylpropenyl)
cyclopropane carboxylate..... 0.300%
INERT INGREDIENTS:..... 99.700%

100.000%

*Cis/trans isomers ratio: max. 30% (+/-) cis and min. 70% (+/-) trans.
+ U.S. Patent No. 3,465,007.

CAUTION KEEP OUT OF REACH OF CHILDREN
