SPEER PRODUCTS, INC.

MEMPHIS, TN 38118

Right Side Panel
Speer Yard & Patio
Repellent Fogger

Spray outdoor areas of the yard, patio and camp ground when there is no breeze. Spray in the direction of a slight breeze. Controls flies, mosquitoes and gnats up to 21 feet away using this fog nozzle. Kills and repels mosquitoes, flies, gnats and wasps. This formulation contains an insecticide and a repellent.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING.

Point spray nozzle away from face and in the direction of the space to be treated. Press down valve button and allow spray fog to fill the air where flying pests linger. For larger areas, best results are obtained by spraying in the direction of a slight breeze that allows the fog to drift into the areas of infestation. Spray while moving away from treated areas. Allow spray to dissipate before occupying the treated area. Repeat as necessary.

FLYING INSECTS - Reduce annoyance from flies, mosquitoes, moths and gnats by directing spray from a distance of 4 to 8 feet from flowering plants, shrubbery, and grass to where the insects may be resting. Avoid heavy wetting of plant foliage. Also spray around garbage cans and other breeding areas. Repeat as necessary. Spray directly on wasps and hornets. Thoroughly wet the nesting area during the evening when these insects are least active.

CRAWLING INSECTS - Spray directly on ants, centipedes, sowbugs, and spiders. Treat areas around garbage cans, picnic sites and camp grounds infested by these pests. Also thoroughly spray ant hills for best results. Spray in short bursts of 2 seconds at a 4 to 8 foot distance for control of Brown Recluse Spider and Black Widow Spider. Repeat application as necessary.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Avoid breathing spray mist. Avoid contact with skin. Harmful if swallowed. Avoid smoking while spraying. Cover food before spraying. Do not spray on food crops. Direct spray away from people or animals. Allow spray to disperse for several minutes before entering the treated area.

Not for indoor use. While spraying for flying insects outdoors, hold container 4 to 6 feet away from plants and shrubs. Direct spray to fill the air around these plants without heavily wetting the plant foliage.

STATEMENT OF PRACTICAL TREATMENT

If swallowed - Drink one or two glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. Get medical attention immediately.

If inhaled - Remove victim to fresh air and apply respiration if indicated.

If on skin - Wash promptly with soap and water. Rinse thoroughly.

If in eyes - Rinse eyes for at least 15 minutes with water and call a physician immediately.

Storage: Do not use or store near heat or open flame. Store in a dry area inaccessible to children.

Disposal: Do not reuse empty container. Wrap container and put in trash collection.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.
