### PRECAUTIONARY STATEMENTS

#### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Avoid breathing spray mist. Avoid contact with skin. Harmful if swallowed. Avoid smoking while spraying. Cover food before spraying. Do not spray on food crops. Direct spray away from people or animals. Allow spray to disperse for several minutes before entering the treated area.

Not for indoor use. While spraying for flying insects outdoors, hold container 4 to 6 feet away from plants and shrubs. Direct spray to fill the air around these plants without heavily wetting the plant foliage.

#### STATEMENT OF PRACTICAL TREATMENT

**If Swallowed** - Drink one or two glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. Get medical attention immediately.

**If Inhaled** - Remove victim to fresh air and apply respiration if indicated.

**If on Skin** - Wash promptly with soap and water. Rinse thoroughly.

**If in Eyes** - Rinse eyes for at least 15 minutes with water and call a physician immediately.

#### STORAGE AND DISPOSAL

**Storage:** Do not use or store near heat or open flame. Store in a dry area inaccessible to children.

**Disposal:** Do not reuse empty container. Wrap container and put in trash collection.

#### PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

# SPEER YARD & PATIO REPELLENT FOGGER

Kills and Repels Mosquitoes, Flies,  
Gnats and Wasps.

EPA REG NO 11715 27

FPA Est No 11715 TN 1

**NET WEIGHT      OZ.**

Manufactured By  
**SPEER PRODUCTS, INC.**  
Memphis, TN 38118

Spray outdoor areas of the yard or patio ground when there is no breeze. Spray in the direction of a slight breeze. Controls flies, gnats up to 21 feet away using this formulation. Kills and repels mosquitoes, flies, gnats and wasps. This formulation contains an insecticide active ingredient.

#### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

#### SHAKE WELL BEFORE USING.

Point nozzle away from face and in the direction of the space to be treated. Press down valve to allow spray fog to fill the air where flying insects are. For larger areas, best results are obtained by spraying in the direction of a slight breeze. Allow fog to drift into the areas of infestation. Move away from treated areas. Allow to dry before occupying the treated area, as necessary.

**Flying Insects** - Reduce annoyance from mosquitoes, moths and gnats by directing spray at a distance of 4 to 8 feet from flowering plants, berries and grass to where the insects are. Avoid heavy wetting of plant foliage. Repeat as necessary. Spray directly at wasps and hornets. Thoroughly wet the nestings. Repeat application as necessary, especially in the evening when these insects are least active.

**Crawling Insects** - Spray directly at centipedes, sowbugs and spiders. Spray around garbage cans, picnic sites and other areas infested by these pests. Also thoroughly wet foliage for best results. Spray in short bursts for 10 to 15 seconds at a 4 to 8 foot distance for control of Recluse Spider and Black Widow. Repeat application as necessary.
