DIRECTIONS

SHAKE BEFORE USING AND AT INTERVALS DURING PROLONGED USE

Hold can upright with nozzle away from you. Press valve down and spray as directed. To avoid possible staining of fabrics or surfaces, do not spray at close range.

Flies, Mosquitoes, Gnats, Wasps, and Small Flying Moths Close all doors and windows and spray room at the rate of 1 second per 1000 cubic feet. Direct spray to all parts of the room, especially windows and other light sources which attract these insects. Keep nozzle in constant motion. Keep room closed for 10 to 15 minutes after treatment. Repeat treatment as necessary.

Bedbugs, Water Bugs, Cockroaches, Spiders, Centipedes, and Saw Bugs Spray in hiding places, cracks, and crevices, behind sinks, cabinets, along baseboards and floors, around pipes and plumbing, hitting insects with spray whenever possible. Repeat treatment as necessary.

Do not spray on food and plants, and do not spray on clothing or other fabrics. Repeat as necessary.
