AIRCRAFT INSECTICIDE AEROSOL

Kills Flies, Mosquitoes, Gnats

U.S. Public Health Section 71.102(b), Part 71, Title 42

GUARANTEE: We guarantee the contents to be formulated from high quality ingredients and that this Atomizer is free from defects in material and workmanship.

ACTIVE INGREDIENTS:

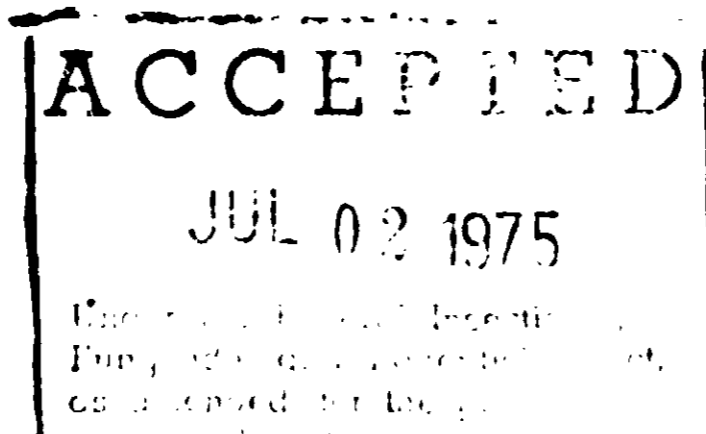

Pyrethrins	.60%
*Piperonyl butoxide, Technical	1.40%
Petroleum distillate	13.00%

INERT INGREDIENTS: 85.00%
100.00%

*Equivalent to 1.12% (butylcarbityl) (6-propyl-piperonyl) ether and .28% related compounds.

CAUTION
KEEP OUT OF REACH OF CHILDREN
See Other Cautions on Back Panel

Net Wt. 16 Oz.

DIRECTIONS

U.S. Public Health Service Section 71.102(b), Part 71, Title 42

- I. The ventilation system shall be stopped and all openings to the exterior kept closed while the insecticide is being released or sprayed, and for a period of not less than three minutes thereafter. If disinsectization is accomplished on the ground prior to take-off, the ventilation system may be opened at the end of such period, provided that the system is equipped with filters or other means for preventing the entrance of insects into the aircraft, but doors, windows, or other such openings to the exterior shall be kept closed until after the take-off, except in the case of emergency, or to permit persons applying the insecticide to debark.
- II. The insecticide shall be dispensed (1.8 gm/sec) in the amount of not less than 5 grams for each 1,000 cubic feet of enclosed space in the aircraft, and shall be released or sprayed throughout all accessible compartments.
- III. Disinsecting may be accomplished either while the aircraft is on the ground before take-off from the last airport before arrival in the United States, or after departure from such airport (for compartments accessible in flight.) In no case shall disinsecting be accomplished later than 30 minutes before the first landing at a United States port.

**USE NO GREATER DOSAGES THAN REQUIRED.
EXCESSIVE SPRAYING IS WASTEFUL.**

TO OPERATE AEROSOL

1. Remove protective cap.
2. Holding dispenser upright, point nozzle in desired direction and press dispensing button to spray.
3. Replace protective cap to prevent accidental discharge when not in use.

CAUTION

Cover or remove all food and feedstuffs prior to application to prevent contamination.

Apply this product only as specified on the label.

WARNING: Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130° F may cause bursting. Never throw container into fire or incinerator.
