

Reg # 11715-75

PM-10

181

IN MISTING EQUIPMENT: Use spraying device similar to a Microsol machine or cold aerosol generators such as MICRO-GEN and LECO.

TO Kill Flies, Mosquitoes, Small Flying Moths and Gnats: Close room, warehouse or other area to be treated and shut off all ventilating systems. Dispense this product as a fine mist. Use a dosage of one-half ounce per 1000 cubic feet of room space. Do not remain in treated areas. Leave room closed for ¼ hour. Ventilate the area after treatment is completed. Repeat application as necessary for insect control.

IN PRESSURIZED TANK SPRAYERS FOR WETTING CONTACT SPRAYS: To kill the listed insects, the diluted spray should be used as follows at a rate of 1 gallon per 1000 square feet of surface area.

To Kill Cockroaches, Ants and Crickets: Contact as many insects as possible with the spray in addition to thorough spraying of all parts of the room suspected of harbouring these pests. Special attention should be paid to cracks, hidden surfaces under sinks, behind stoves and refrigerators and wherever these pests are suspected of hiding. To kill ants, treat doors, around window frames, and trails and other areas of entry. Repeat as necessary.

To Kill Carpet Beetles: Directly spray as many insects as possible. Spray both interior and exterior of upholstered furniture. Both top and bottom of rugs and carpets should be sprayed thoroughly. Also treat shelves, closets, areas under furniture and wherever these insects are seen or suspected. Repeat as necessary.

To Kill Exposed forms of Confused Flour Beetles, Saw-toothed Grain Beetles, and Rice Weevils: Find and destroy infested package foods. Remove all other items from pantry. Spray the shelves to kill any of the named insects present. Place clean paper on the shelves and return packages after shelves have dried. Apply as a coarse wet spray to all other areas infested with these insects. Pay particular attention to cracks and crevices in floors, walls and ceiling. Repeat as necessary.

To Kill Sowbugs, Fleas and Spiders: Contact as many insects as possible with the spray. Also thoroughly spray all parts of the room suspected of harbouring these pests. Special attention should be paid to cracks, crevices, hidden surfaces under sinks, behind stoves and refrigerators and machinery.

SPEER

PYRETHROID

CONCENTRATE

T-12/4

(OIL DILUTABLE)

For use only in household and non-food areas of industrial buildings, schools, warehouses, office buildings, theaters, garages, hotels, motels, hospitals & kennels.

ACTIVE INGREDIENTS:

Tetramethrin [(1-Cyclohexene-1, 2 dicarboximido) methyl
2, 2 dimethyl-3 (2-methylpropenyl) cyclopropanecarboxylate] 12.00%
*3 Phenoxybenzyl d cis and trans** 2, 2 dimethyl 2-(2-methylpropenyl) cyclopropanecarboxylate 3.83%
*Other isomers 18%

INERT INGREDIENTS 83.99%

Contains petroleum distillate

*d (cis, trans) phenethrin

**cis/trans isomer ratio: Max: 25% (+ or -) cis
Min: 75% (+ or -) trans

KEEP OUT OF REACH OF CHILDREN
CAUTION

Kills flies, mosquitoes, small flying moths, gnats, cockroaches, ants, crickets, carpet beetles, confused flour beetles, saw toothed grain beetles, rice weevils, sowbugs, fleas and spiders.

Precautionary Statements

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed or absorbed through skin. Avoid breathing vapors or spray mist. Avoid contact with skin and eyes. In case of contact, immediately flush eyes or skin with plenty of water. Obtain medical attention if irritation persists.

Do not use in commercial food processing, preparation, food storage or serving areas. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Exposed food should be covered or removed.

Remove pets, birds and cover fish aquariums before spraying.

PHYSICAL HAZARDS

Do not store near heat or open flame.

DIRECTIONS FOR USE

GENERAL CLASSIFICATION:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry place. Keep container closed.

Pesticide Disposal: Pesticide of resale that cannot be used or chemically processed should be disposed of in a landfill approved for pesticides or burned in a safe place away from water supplies. Do not contaminate water, land or food by storage or disposal. Open dumping is prohibited.

Container Disposal: (a) Containers of 30 gallons or more container will offer for reconditioning, or (b) All containers triple rinse (or equivalent) and offer for recycling, reconditioning or disposal in approved landfill, or bury in a safe place.

General Consult Federal, State or local disposal authorities for approved alternative procedures.

Dilution Directions: SPEER CONCENTRATE T-12/4 must be diluted with petroleum distillate prior to use either as a space or contact spray. Use 1 part CONCENTRATE T-12/4 to 24 parts petroleum distillate to make a ready-to-use spray. The resulting spray will contain .48% Tetramethrin and .16% d phenethrin. **NOTE:** When used in hospitals, patients should be removed prior to treatment. Ventilate for two hours after treatment. Do not return patients to room until after ventilation. See left panel for spraying directions.

Not Reviewed. Registrant claims to be in accordance with Reregistration of Pesticide Product Guide, for Phase 2 Response, Page 2.12, Active to Inert Chemicals.
