Net Weight 3 ounces

**SPEER PRODUCTS, INC.**  
 MEMPHIS, TN 38118

EPA Reg. No. 11715-21 EPA Est. No. 11715-11-1

**FOR USE ONLY WHEN BUILDING HAS BEEN VACATED BY HUMAN BEINGS AND PETS**

**DIRECTIONS FOR USE**

Use one canister for each 6,000 cu. ft. of unobstructed area. Example: 30' long X 20' wide X 10' high = 6,000 cu. ft. Use additional units for remote rooms or where the free flow of the mist is not assured.

**PREPARATION:** Open cabinets and doors to areas to be treated. Shut off fans and air conditioners. Put out all open flames except pilot light. Remove pets and cover fish tanks or fish bowls with paper, or remove from area. Close exterior doors and windows. Cover exposed foods, dishes, and food handling equipment.

**TO START FOGGING:** Place Fogger on table, chair or stand, at least six feet from pilot light. Place several thicknesses of newspapers under canister to prevent marring of surface. Hold can at arm's length, with top of can pointing away from face and eyes. Push down on finger pad until it locks—this will start fogging action. Set canister in upright position on table, etc. and leave building at once. DO NOT RE-ENTER BUILDING FOR FOUR HOURS. Then open exterior doors and windows and allow to air for 30 minutes before reoccupying area.
