DIRECTIONS FOR USE

This product is a fast acting insecticide. It is a contact killer and will kill on contact. Apply to the pest as directed.

This product is a fast acting insecticide. It is a contact killer and will kill on contact. Apply to the pest as directed.

Hold can upright. Press valve opposite the spray to infested areas. Be sure a deposit of spray coats surface for residual. Repeat applications as necessary for control.

TO KILL COCKROACHES, ANTS, SILVERFISH, SPIDERS, CRICKETS, AND EARWIGS: Spray areas where these pests are found or may hide, including dark corners of rooms and closets, cracks and crevices, along baseboards and door sills and frames, behind and beneath sinks, stoves, refrigerators, and cabinets and around garbage cans, plumbing and other utility installations. Pests driven out of hiding places should be sprayed directly. Spray ant trails, nests and points of entry.

TO KILL BROWN DOG TICKS: Apply thoroughly as a spot treatment to infested areas such as pet beds and resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor and floor covering where these pests may be present. Fresh bedding should be placed in animal quarters following treatment. Do not spray pets with this product.

TO CONTROL FLIES AND MOSQUITOES (OUTDOORS): Use only on outdoor surfaces. Spray outside surfaces of windows and door frames and other areas where these pests may enter the home. Also spray dark corners and localized resting areas, such as under eaves, porches, partitions and in garages where these insects may congregate. Flies and mosquitoes coming to rest on treated surfaces will be killed. Repeat treatment when effectiveness diminishes.
