

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed or absorbed through skin. Avoid breathing vapors or spray mist. Avoid contact with skin and eyes. In case of contact, immediately flush eyes or skin with plenty of water. Obtain medical attention if irritation persists.

When used in hospitals, patients should be removed prior to treatment. Ventilate for two hours after treatment. Do not return patients to room until after ventilation.

All food processing surfaces and utensils should be covered during treatment, or thoroughly washed before use. Exposed food should be covered or removed. Do not apply when food processing is underway.

Remove pets, birds and cover fish aquariums before spraying.

PHYSICAL HAZARDS

Do not use, pour, spill or store near heat or open flame.

DIRECTIONS FOR USE

GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry place. Keep container closed.

Pesticide Disposal: Pesticide or rinsate that cannot be used or chemically processed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies. Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited.

Container Disposal:

- Containers of 30 gallons or more—reseal container and offer for reconditioning, or
- All containers—triple rinse (or equivalent) and offer for recycling, reconditioning or disposal in approved landfill, or bury in a safe place.

General: Consult Federal, State or local disposal authorities for approved alternative procedures.

KEEP OUT OF REACH OF CHILDREN

CAUTION

Net Contents

IN MISTING EQUIPMENT:

Use spraying device similar to a Microsol machine or cold aerosol generators such as MICRO-GEN and LECO.

To Kill Flies, Mosquitoes, Small Flying Moths and Gnats:

Close room, warehouse or other areas to be treated and shut off all ventilating systems. Dispense this product as a fine mist. Use a dosage of one-half ounce to one fluid ounce per 1,000 cubic feet of room space. Do not remain in treated areas. Leave room closed for 1/2 hour. Ventilate the area after treatment is completed. Repeat application, as necessary for insect control.

IN PRESSURIZED TANK SPRAYERS FOR VETTING CONTACT SPRAYS:

To kill the listed insects, spray should be used as follows at a rate of 1 gallon per 1,000 square feet of surface area.

To Kill Cockroaches, Ants and Crickets:

Contact as many insects as possible with the spray in addition to thorough spraying of all parts of the room suspected of harbouring these pests. Special attention should be paid to cracks, hidden surfaces under sinks, behind stoves and refrigerators and wherever these pests are suspected of hiding. To kill ants, treat doors, around window frames, ant trails and other areas of entry.
