

Reg # 11715-106 PM-19 18/

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND
DOMESTIC ANIMALS
CAUTION**

Harmful if swallowed, inhaled or absorbed through the skin. Avoid contact with eyes, skin, and clothing. Skin contact may cause toxic symptoms. In case of skin contact wash with soap and water. Wash thoroughly with soap and water after using and before eating or smoking. Do not permit children on treated surfaces until surfaces are dry. Use adequate ventilation.

**STATEMENT OF PRACTICAL
TREATMENT**

If Swallowed: Do not induce vomiting. Call a physician.
If On Skin: Wash with soap and warm water.
If In Eyes: Flush eyes with plenty of water. If irritation persists, get medical attention.
NOTE TO PHYSICIAN: Atropine sulfate is antidotal.
DO NOT USE ON HOUSEHOLD PETS OR OTHER ANIMALS

ENVIRONMENTAL HAZARDS

Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean water mark.

PHYSICAL HAZARDS

Flammable. Keep away from heat and open flame. Do not smoke while spraying.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Storage: Do not store near heat or open flame.
Disposal: Triple rinse (or equivalent) and offer for recycling or reconditioning, or dispose of in a sanitary landfill or by incineration if permitted by State and local authorities.

**MAGIC GUARD
RESIDUAL INSECTICIDE**

Contains Baygon TM

ACTIVE INGREDIENTS:
*2-(1-Methylethoxy)phenyl methylcarbamate..... 1.000%
Pyrethrins..... 0.030%
Piperonyl butoxide, technical..... 0.236%
INERT INGREDIENTS: +..... 98.734%
+Contains Petroleum Distillates
*U.S. Patent No. 3,111,539 and Canadian Patent No. 725,204

Baygon is a Reg. TM of the Parent Company of Farbenfabriken Bayer GmbH, Leverkusen.

Magic Guard Residual Insecticide is excellent for use in Furniture Storage and other Warehouses, Hospitals, and Institutions. When used as directed this Residual Insecticide is effective in killing resistant roaches, waterbugs, silverfish, carpet beetles, ants, flies, and granary weevils and rice weevils (exposed stages).

**KEEP OUT OF REACH OF
CHILDREN
CAUTION**

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This product must be applied using a compressed air sprayer. Do not apply this product using a trigger pump sprayer.

DIRECTIONS FOR USE IN NON FOOD AREAS

Spot Application (Do not fog): Spray only with a coarse wet spray, or paint surfaces.
Granary Weevils and Rice Weevils (exposed stages), Roaches, Waterbugs and Silverfish: Spray liberally into all cracks, underneath skins, shelves, tables, chairs, around windows, doors, cabinets, machinery and motor bases, and around pipes. Spot-spray walls where insects are congregating. Saturate tops and bottoms of baseboards, or where walls and floors meet.

Ants: Treat as roaches, paying particular attention to surfaces where ants travel, ant trails, and where ants enter a room or building-such as the inside and outside surfaces of window frames, door frames and door sills. Pour residual insecticide over and into ant hills. Repeat several times if necessary.

Flies (outdoors only): Spray or paint on screens and outside walls around doors. Spray all places outdoors where flies congregate. Wet surfaces well, but not to the extent that insecticide runs off. Surfaces subject to dust, frequent cleaning, or weathering may require frequent application.

Carpet Beetles: Spray heavily wherever these insects are seen or suspected, such as behind baseboards, along edges of carpets, under rugs or floor coverings, in or between floor and baseboard. Repeat spraying every few days. In all cases of insect infestation, repeat above procedures several times.
