Dear Mr. Williams:

Subject: Revised Labeling  
Magic Guard Automatic Fogger No. II  
EPA Reg. No. 11715-108  
Submission dated September 18, 1991

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. Five copies of the finished labeling must be submitted prior to releasing the product for shipment.

Delete the phrase, "General Classification", since the use of this pesticide is not classified.

As new labels are prepared, modify the existing statement, "All food processing surfaces and utensils should be covered during treatment or thoroughly washed before use", to read:

"All food processing surfaces and utensils should be covered during treatment or thoroughly washed with an effective cleaning compound followed by a potable water rinse before use."

Sincerely,

  
for Richard F. Mountfort
