

Reg # 11715-110
Precautionary Statements
Hazards to Humans and Domestic
Animals
CAUTION

May be harmful if swallowed, inhaled or absorbed through skin. Avoid breathing spray mist and provide adequate ventilation of area being treated. Avoid contact with skin, eyes and clothing. In case of contact immediately flush skin and eyes with plenty of water. Wash thoroughly with soap and water after handling. If poisoning occurs, get prompt medical aid.

**STATEMENT OF PRACTICAL
TREATMENT**

If swallowed - Drink one or two glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. Get medical attention immediately.

If Inhaled - Remove victim to fresh air and apply respiration if indicated.

If on skin - Wash promptly with soap and water. Rinse thoroughly.

If in eyes - Rinse eyes with plenty of water and call a physician immediately.

NOTE TO PHYSICIAN: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine, by injection, is antidote of choice.

Do not use in commercial food processing or preparation areas. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Cover exposed food. Remove pets, birds and cover fish aquariums before spraying. Do not allow children or pets to contact treated surface until spray has dried.

PHYSICAL HAZARDS

Do not use or store near heat or open flame.

STORAGE AND DISPOSAL

Storage: Store in a cool dry area away from heat or open flame.

Disposal: Do not reuse empty container. Wrap container and put in trash collection.

PM-19
**MUG-A-BUG
INSECTICIDE**

Ready to Use Spray - Residually Kills:
Roaches, Ants, Ticks, Fleas and other
listed insects.

For Use in Homes and Non-Food Areas of Kennels, Commercial Buildings: Warehouses, Theatres, Office Buildings, Schools, Motels, Hotels, Restaurants and Food Processing Facilities.

ACTIVE INGREDIENTS:

d-trans Allethrin (allyl homolog of Cinerin I).....	0.050%
Related compounds.....	0.004%
N-Octyl bicycloheptene dicarboximide.....	0.400%
*Chlorpyrifos [0,0-diethyl 0-(3,5,6-trichloro-2-pyridyl) phosphorothioate].....	0.500%
INERT INGREDIENTS:.....	99.046
	100.000%

MGK 264, Insecticide Synergist
*U.S. Patent No. 3,244,586 - Dow Chemical Company

Contains aromatic petroleum distillates and petroleum distillates.

**KEEP OUT OF REACH OF CHILDREN

**DIRECTIONS FOR USE
SHAKE WELL BEFORE USE**

It is a violation of Federal law to this product in a manner inconsistent with its labeling.

GENERAL: Use Mug-A-Bug Insecticide as a spot treatment to control cockroaches, waterbugs, silverfish, ticks, fleas, and other insects listed below. Apply this product as a coarse spray to localized areas where pests are found or may occur. Spray surfaces until wet. Repeat as needed.

To Kill Cockroaches, Ants, Crickets, Silverfish, Spiders and Sowbugs: Spray areas where these pests are found or may hide, including dark corners of rooms and closets, cracks and crevices in walls; along baseboards and door and window frames; behind and beneath sinks, stoves, refrigerators and cabinets and around garbage cans, plumbing and other utility installations. Pests driven out of hiding places should be sprayed directly. For ants, apply to ant trails, also around doors and windows and wherever else these pests may find entrance. Repeat as necessary.

Flies and Mosquitoes: Use only out of doors as an aid in reducing annoyance from these insects. Spray outside surfaces of window and door frames as well as other areas where these pests may enter the home. Also spray dark corners and localized resting areas (such as under eaves) or porches, patios and garages where these insects may congregate. Flies and mosquitoes coming to rest on treated surfaces will be killed. Repeat treatment when necessary.

Flea and Tick Treatment: Thoroughly vacuum all carpeting, upholstered furniture, along baseboards, under furniture and in closets. Seal vacuum bags and dispose. Mop hard floors. Replace pet bedding. Using a smooth back-and-forth motion, spray all floors and other aforementioned areas thoroughly, especially pet resting areas and other areas your pet frequents. Provide a good, even treatment, but do not soak the areas you treat. If fleas reappear, you should either repeat treatment or allow the product's residual effect to kill the newly emerged fleas. **DO NOT SPRAY PETS WITH THIS PRODUCT.**
