SPEER HOSPITAL SPRAY DISINFECTANT/DEODORANT kills influenza A2 virus, the T. B. Bacillus, deadly Staphylococci, Streptococci, Salmonella, Trichophyton interdigitale (the athlete's foot fungus) on hard inanimate non-porous environmental surfaces.

Spray regularly to eliminate most germs from bedsteads, bed springs, bed rails, bedside tables, bathroom basins, toilet seats, shower stalls, bathtubs, telephones, door handles, light switches, plumbing fixtures, window blinds, empty hampers, waste receptacles, sills, walls, closets, and places where germs may be a problem. The aerosol spray penetrates areas hard to reach with non-propelled liquid disinfectants.

DIRECTIONS FOR USE

It is violation of Federal law to use this product in a manner inconsistent with its labeling.

TO DISINFECT: Thoroughly clean surfaces to be disinfected prior to application. Hold can upright, 6" to 8" from surface. Spray surface 2 to 3 seconds until covered with fine mist. Let dry on surface.

TO DEODORIZE: Hold can upright and spray into center of room 1 to 2 seconds.
MOLD AND MILDEW CONTROL: Use in basements, closets, laundry rooms, summer cottages, boats, storage areas, shower stalls. Inhibits the growth of mold and mildew on mattresses, pillows, shower curtains, painted surfaces, tiled walls, curtains and similar surfaces. For mildew control follow directions for disinfection. Application should be repeated once a week or when new growth appears on hard surfaces. Surfaces should be cleaned prior to application.
