

SPI CARPET SPRAY

(WITH CHLORPYRIFOS)

**KILLS FLEAS, BROWN DOG TICKS,
MITES, LICE AND OTHER LISTED
INSECTS**

ACTIVE INGREDIENTS:

Pyrethrins.....	0.025%
Piperonyl butoxide, technical*.....	0.050%
N-Octyl bicycloheptene dicarboximide**.....	0.084%
Chlorpyrifos [(0,0-diethyl 0-(3,5,6-trichloro- 2-pyridyl) Phosphorothioate].....	0.5(X)%
INERT INGREDIENTS***.....	99.341%
	100.000%

***Contains petroleum distillates

*Equivalent to 0.04% (butylcarbityl) (6-propyl-piperonyl)ether and 0.01% related compounds.

**MGK 264 Synergist

**KEEP OUT OF REACH OF
CHILDREN
CAUTION**

**See Additional Precautions on Left
Panel.**

Net Wt. _____ oz.
EPA Reg. No. 11715-139
EPA Est. No. 11715-TN-1

Manufactured By:
SPEER PRODUCTS, INC.
Memphis, TN 38118

ACCEPTED
MAY 31 1995
Under the Federal Insecticide,
Fungicide and Rodenticide Act,
as amended, for the pesticide
registered under
EPA Reg. No. 11715-139

1992

**Precautionary Statements
HAZARDS TO HUMANS AND DOMESTIC**

****ANIMALS
CAUTION**

May be harmful if swallowed, inhaled or absorbed through skin. Avoid breathing spray mist and provide adequate ventilation of area being treated. Avoid contact with skin, eyes and clothing. In case of contact immediately flush skin and eyes with plenty of water. Wash thoroughly with soap and water after handling. If poisoning occurs, get prompt medical aid. Do not allow children or pets to contact treated surfaces until dry.

**STATEMENT OF PRACTICAL
TREATMENT**

If swallowed-Drink one or two glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. Get medical attention immediately.

If inhaled - Remove victim to fresh air and apply respiration if indicated.

If on skin - Wash promptly with soap and water. Rinse thoroughly.

If in eyes - Rinse eyes with plenty of water and call a physician immediately.

NOTE TO PHYSICIAN: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine, by injection, is antidote of choice.

Do not use in commercial food processing or preparation areas. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Cover exposed food. Remove pets, birds and cover fish aquariums before spraying. Do not allow children

or pets to contact treated surface until spray has dried.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130 F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

Storage: Store in a cool, dry area away from heat or open flame.

Disposal: Replace cap and discard container in trash. Do not incinerate or puncture.

SHAKE WELL BEFORE USING

This water-based insecticide has no strong kerosene odor, is non-staining and won't damage carpets, rugs, floors, or baseboards. However, care should be taken not to "soak" fabric-covered furniture or carpeting which has dark colored padding or draperies with dark linings - discoloration could occur, if fabric is too wet.

**FLEAS , BROWN DOG TICKS, MITES AND
LICE IN CARPETING:**

Move furniture away from walls. Hold container 18-24 inches from carpeting and with a sweeping motion, spray at the rate of one foot per second or until surface is wet. Thoroughly spray cracks, crevices, along and behind baseboards and door frames. Allow carpet to dry before replacing furniture or place foil under

furniture legs to prevent staining. After replacing furniture, spray balance of carpeting as above.

Leave treated areas and do not return for at least one hour. Do not allow children or pets to walk on treated surfaces until they are completely dry.

Do not spray pets with this product. Treat your pets with a registered flea and tick product to control the source of your infestation.

FLEAS , BROWN DOG TICKS, MITES & LICE IN DOG HOUSES AND KENNELS: Remove and destroy pet bedding. Spray interior of dog house, sills and ledges and outside runways.

ROACHES, WATERBUGS, CRICKETS, AND CENTIPEDES: Thoroughly spray cracks, crevices, baseboards and around garbage containers and other places where insects habitate.

SILVERFISH AND FIREBRATS: Apply to cracks, baseboards, behind shelving, book cases and other storage areas.

SCORPIONS AND SPIDERS: Spray directly on pests when possible. Treat surfaces of out buildings and garages where pests hide or congregate. Spray points of entry such as window sills and along crevices.
