William L. Washburn
Speer Products, Inc.
P.O. Box 18993
Memphis, TN 38181-0993

Dear Mr. Washburn:

Subject: Response to Dipropyl Isocinchomeronate DCI
Farnam Wipe II Fly Protectant
EPA Registration Number 11715-234
Submission Dated December 12, 1994

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below:

1. Revise the "IF INHALED" Statement of Practical Treatment to read as follows:

IF INHALED: Remove victim to fresh air. Get medical attention.

2. Add the statement "Contains petroleum distillates" as a footnote to the Inert Ingredients declaration.

A stamped copy of the label is enclosed for your records. Submit three copies of revised final printed labeling prior to releasing product for shipment.

If you have any questions or comments, please contact me at (703) 305-6788.

Sincerely,

RPK

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Keep out of reach of children. Harmful if swallowed. Wash hands thoroughly after using. Use only Turkish toweling or WIPE Applicator Mitt (not a substitute material) to apply WIPE II. Avoid using excessive amounts of WIPE II on your horse. Do not soak the skin. Do not use on horses intended for human consumption. Do not store or pour near an open flame or use while smoking.

ENVIRONMENTAL HAZARDS

Do not apply directly to water or wetlands (swamps, bogs, marshes, and potholes). Cleaning of equipment or disposal of wastes must be done in a manner that avoids contamination of bodies of water or wetlands.

STATEMENTS OF PRACTICAL TREATMENT

IF SWALLOWED: Do not induce vomiting. Immediately give large quantities of water. Do not give anything by mouth to an unconscious person. Seek medical attention.

IF IN EYES: Flush with water for at least 15 minutes. Seek medical attention if irritation persists.

IF ON SKIN: Wash with soap and water. Wash contaminated clothing before reuse.

IF INHALED: Move individual to fresh air. Seek medical help if irritation persists.

DIRECTIONS FOR USE

SHAKE WELL BEFORE USING

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

FOR USE ONLY ON SHOW, RACE, WORK OR PLEASURE HORSES

WIPE II Fly protectant is specially formulated for use on valued race horses and fine show horses, but will prove of equal value to pleasure riders seeking effective long-lasting fly protection for their animals. Actually helps in the removal of dirt and dandruff. Imparts a high sheen to the hair when brushed out. And, it is pleasant to use. Has a light, bright, pleasing fragrance.

Before applying WIPE II to your horse, brush him down thoroughly to remove loose dust and dirt. Moisten (but do not soak) a folded piece of Turkish toweling (approximately 12" x 15") with WIPE II. Rub briskly against the growth direction of hair. Give special attention to shanks, legs, shoulders, neck and facial area of horse where flies tend to cause the greatest problem. Add more WIPE II to the applicator as needed, applying approximately one to two ounces for the total application on a daily basis (the variance will depend on the size of the horse. Groom with a brush

To kill attached ticks, dab WIPE II directly on the tick with a saturated cloth

4 of 4

A FEW IMPORTANT POINTS TO REMEMBER:

*In order to keep the applicator moist and ensure proper coverage of WIPE II it is recommended that the cloth used be kept in an airtight container (a tin can will do) between uses.

*Regular daily applications of WIPE II may build up repellency. Because of this, its effectiveness may be increased enabling a reduction in the amount of WIPE II applied on a daily basis.

*To provide maximum effectiveness, the best time for application is early morning.

*Climatic conditions such as temperature and humidity and cleanliness of the horse's coat will affect the amount of repellent required to do an effective job. Because of this, you may have to experiment with the amount of WIPE II in order to arrive at the optimum amount needed.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry place away from heat or open flame.

DISPOSAL: Do not reuse empty container. Wrap and put in trash.
