Speer NeoPerm
Household Crawling
Insect Killer

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Speer Products, Inc.
P.O. Box 18993
Memphis, TN 38181-0993

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Make the labeling changes listed below before you release the product for shipment:

a. Add the phrase "EPA Registration No. 11715-266

b. Under **Precautionary Statements** add as the first sentence "Harmful if absorbed through skin or inhaled."

c. Under **Precautionary Statements** after "Avoid contact with skin, eyes and clothing." add "Avoid breathing dust or spray mist."

d. Under **Precautionary Statements** before "Avoid contamination of feed and foodstuffs." add "Remove contaminated clothing and wash before reuse."

e. Under **Precautionary Statements** delete "Do not apply to classrooms when in use."

f. Under **ENVIRONMENTAL HAZARDS** change "Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark." to read "Do not apply directly to water."

g. Under **PHYSICAL OR CHEMICAL HAZARDS** add "Flammable."

3. Submit three (3) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Allow a few minutes for product wind if breeze is blowing.

Pests on Outside Surfaces of E building infestation due to Ant

BEST AVAILABLE COPY

4 7 4
Earwigs, Millipedes, and Sowbugs (Pillbugs). Spray foundation of building where insects are active and may find entrance, up to a height of 2 to 3 feet. Apply as a residual spray to outside surfaces of buildings where insects tend to congregate. Spray areas include (but are not limited to) screens, window frames, eaves, porches, patios, garages and refuse dumps. Repeat treatment as necessary.

CRAWLING INSECTS: Ants, Cockroaches, including Asian Cockroaches, Crickets, Centipedes, and Silverfish. Spray infested surface of patio or picnic area, hitting as many insects as possible. Also spray legs of tables and chairs to repel Ants. Spray ant hills for best control.

Ants, Lone Star Ticks, Crickets, Fleas and Earwigs: Apply thoroughly to infestations in bushes, grass or weeds. For Ants, spray freely around ant trails and hills.

For Control of Garden Insects: For use on roses, dahlias, asters and other ornamentals to kill Japanese Beetles hit by spray, as well as Whiteflies, Aphids, exposed Thrips, Spiders, Red Mites and Leafminers.

May be used on plants, as well as a multi-purpose spray in small gardens and for spot treatments of incipient insect infestations to prevent spreading in large garden areas. May also be used on other plants such as African violets, asters, azaleas, begonias, camellias, carnations, chrysanthemums, dahlias, delphiniums, dogwood, English ivy, euonymus, fuschia, geraniums, crassula, grape vine, Kentia palm, laurel, marigolds, rhododendrons, roses, rubber plants, snapdragons, stocks, wandering Jews and zinnias.

Effective when used as directed against Whiteflies, Aphids, Spider and Red Mites, exposed Thrips, Lace Bugs, Japanese Beetles, Pavement Ants, Clover Mites and Army Worms. When spraying plants, do not operate closer than 18 inches. Use sweeping motion. Spray in one second bursts. Be cautious about wetting tender foliage, young plants and new growth. Do not spray plants when temperatures exceed 90° F. Contact insects directly, whenever possible. Repeat treatment as infestations occur.

STORAGE AND DISPOSAL

Store in a cool, dry area. Do not transport or store below 32° F. Wrap container in several layers of newspaper and dispose of in trash. Do not incinerate or puncture.

Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
