U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (H7505C)
401 "M" St., S.W.
Washington, D.C. 20460

EPA Reg. Number:
11715-
299

Date of Issuance:
DEC 06 1995

NOTICE OF PESTICIDE:
 Registration
 Reregistration

Term of Issuance: Until
Reregistration

Name of Pesticide Product: Speer
Point Five
Chlorpyrifos Aerosol

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Speer Products
4242 B.F. Goodrich Boulevard
P.O. Box 18993
Memphis, Tennessee 38181-0993

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Make the following label changes:
 - a. Revise the EPA Registration Number to read, "EPA Reg. No. 11715-299".
 - b. Correct the chemical name of chlorpyrifos by adding a dash, ie. "O,O-Diethyl O-(3,5,6-Trichloro-2-Pyridyl) Phosphorothioate." Additionally, correct the Ingredient Statement claims so that the decimal points are aligned.

Signature of Approving Official:

DHE

Dennis H. Edwards, Jr.
Product Manager 19
Insecticide-Rodenticide Branch
Registration Division (7505C)

Date:

DEC 06 1995

- c. Revise the Statement of Practical Treatment for "If Swallowed" to read:

IF SWALLOWED: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger, or if available by administering syrup of ipecac. If person is unconscious, do not give anything by mouth and do not induce vomiting.

- d. We have not received a letter from the USDA authorizing use of this product in Federally inspected meat and poultry plants. In order to issue this registration, we have deleted the authorization statement. We have also deleted the claim of "60 Day Residual Activity." In the future, you may add these statements by submitting an amendment, provided that the supporting information is included with the application.

3. Submit two copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label and our toxicology review are enclosed for your records.

Sincerely,

DHE

Dennis H. Edwards, Jr.

Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

11715-299

- ~~60 DAY RESIDUAL ACTIVITY~~
- **KILLS ROACHES THAT CROSS ITS PATH**
- **KILLS ROACHES WHERE THEY LIVE & BREED**
- **KILLS CRAWLING BUGS WHERE THEY HIDE**
- **CREATES AN INSECTICIDAL BARRIER**

~~Authorized by USDA for use in inedible areas of Federally inspected meat and poultry plants.~~

This product is intended for use by licensed pest control operators only. Sale of *Speer Point Five Chlorpyrifos Aerosol* to the general public is strictly prohibited.

STATEMENT OF PRACTICAL TREATMENT

If Swallowed: Call a physician or Poison Control Center immediately. Do not induce vomiting or give anything by mouth to an unconscious person. Gastric lavage is indicated.

If on Skin: Remove contaminated clothing and wash affected area with soap and warm water. Get medical attention if irritation persists. **If in Eyes:** Flush eyes with plenty of water. Get medical attention if irritation persists.

If Inhaled: Remove victim to fresh air and apply artificial respiration if indicated. Get medical attention immediately.

Note to Physician: If symptoms of cholinesterase inhibition are present, atropine sulfate is antidotal. 2-PAM is also antidotal and may be administered in conjunction with atropine sulfate.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed, inhaled or absorbed through skin. Avoid breathing vapors or spray mist. Avoid contact with skin, eyes or clothing. In case of contact, immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists. Wash thoroughly after using and before eating or smoking. Avoid contamination of food, utensils and food preparation surfaces.

PHYSICAL OR CHEMICAL

Contents under pressure. Do not use or store in a container. Do not use or store in a container. Exposure to temperatures above 120°F. Do not spray on plastic, paint or directly into any electronic equipment such as televisions, computers, etc.

ENVIRONMENTAL

This product is toxic to fish, do not apply directly to water, or to areas where it is present or to intertidal areas. Do not contaminate water with washwaters.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

HOW TO USE SPEER POINT FIVE CHLORPYRIFOS AEROSOL

Use with the supplied button. Do not use with most crack and crevice applicators. It is to be injected only into cracks and crevices, other small openings. Release applicator at a rate of one linear foot per second. For heavy infestation, place spots about 3' apart. In light infestation, place injector tip along the crack and crevice at a rate of one linear foot per second. For closed voids, calculate the volume and treat at a rate of five to ten linear feet. Several holes may be required. Repeat as necessary.

Crawling Insects: Cockroaches, Spiders, Ticks, Earwigs, Centipedes: Inject the aerosol into the crevices and void spaces. These may include, but are not limited to, pipes and sinks, under refrigerator

4024

SPEER POINT FIVE CHLORPYRIFOS AEROSOL

washing machines, stoves, cabinets, meter boxes and man holes. Repeat as necessary.

Booklice and Silverfish: Inject into cracks and crevices associated with baseboards, door frames, bookcases and other harborage sites. Repeat as necessary.

Ants: Inject into cracks, crevices and voids where ants may be traveling and/or harboring, including but not limited to, around doors, window frames, behind electric switches and outlets and other structural cracks and crevices.

Grain weevils, Flour Beetles, Chocolate Moths, Drug Store Beetles (in exposed adult and larvae stages) and hibernating stages of Boxelder Bugs, Elmleaf Beetles, Cluster Flies and Clover Mites: Inject cracks and crevices and/or voids where these insects may be harboring or hibernating. Infested areas include, but are not limited to, cracks and crevices in cabinets and pantries, wall voids, around window and door frames, under siding and in machinery. Repeat as necessary.

Localized treatment of wood infesting insects: Beetles and Borers (such as the following families: Anobiidae, Bostrichidae, Buprestidae, Cerambycidae, Lyctidae, Oedermeridae, Sesiidae), **Carpenter Ants, Carpenter Bees, Termites and Wood Wasps:** Locate suspected infestation and/or insect tunnels and cavities. Inject 5 to 10 seconds of spray into insect tunnels, galleries and inaccessible closed voids. In infested sites, pilot holes should be drilled 8 to 10 inches apart to ensure thorough insecticidal gallery treatment. Take special care to ensure that electrical wiring, plumbing, etc. is not contacted when drilling. For carpenter bees, seal entrance openings with pieces of stainless steel wool after application.

Imported Fire Ants: Use an appropriate soil injector when treating mounds. To maximize spray distribution, insert the full length of the injector into the mound if possible. Inject the mound at 3 to 6 sites at a rate of 5 to 10 seconds of spray per site. For very large mounds (over 36" in

diameter), increase the number of injection sites. Space injection sites in a circular pattern on the mound surface with one site in the center. To quiet active ants on the mound, sweep surface with spray from a distance of 18". For best results, apply in cool weather (65-80°F) or in early morning or late evening hours. Treat new mounds as they appear.

APPLICATIONS IN FOOD-HANDLING

ESTABLISHMENTS: Places other than residences where food is held, processed or served.

Food Areas - Application Limited to Crack and Crevice

Treatment Only: Includes areas for receiving, storage, packing (canning, bottling, wrapping or boxing), preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups). Serving areas (when food is exposed and facility is in operation) would also be considered a food area.

Apply prescribed amounts of insecticide directly into cracks and crevices or voids using injection tube in joints between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases where insects hide. Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food, food utensils or food processing surfaces.

APPLICATIONS OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS OTHER THAN AS A CRACK AND CREVICE TREATMENT ARE NOT PERMITTED.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry area away from heat and open flame and inaccessible to children

Disposal: Replace cap and discard container in trash. Do not puncture or incinerate.

Buyer assumes all risk associated with use, storage and handling of this product not in strict accordance with the directions given herewith.
