PRECAUTIONARY STATEMENTS HAZARD TO HUMANS & DOMESTIC ANIMALS CAUTION

Harmful if inhaled. Avoid breathing dust. Avoid contact with
eyes or clothing. Wash thoroughly with soap and water after
handling. Remove contaminated clothing and wash before
reuse. Take care not to introduce the product into the air during
indoor application; use only in well ventilated areas. Do not
apply where children are likely to contact treated surfaces.
Remove or cover aquaria before application. Do not apply to
areas, surfaces or utensils which will contact food or feed.
Exposed food should be covered or removed during
application. All food processing surfaces and utensils should
be covered during application or thoroughly washed with soap
and water after use.

Do not apply product directly in/on eyes, mouth or genitalia of
animals. Do not treat or cause exposure to puppies less
than four weeks old. Do not use this product on old, sick,
debilitated or pregnant animals.

ENVIRONMENTAL HAZARDS

Do not apply directly to water. Do not contaminate water when
disposing of equipment washwater.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner
inconsistent with its labeling.

For Household Use Only: For Use in Rooms, Apartments,
Homes, Attics, Basements, Campers, Boats, Household
Storage Areas, Garages, Pet Sleeping Areas, Cabins.

Speer Permethrin Dusting Powder provides quick killing
action and long lasting control of fleas and ticks on dogs.

INDOOR USE:

Speer Permethrin Dusting Powder is intended for applications
with hand or power duster (Actisol® or similar equipment),
with a paint brush or by other suitable means, to hiding and
other places where insects are found. To
apply insecticide directly into cracks and crevices, use a
bulbous duster or other suitable equipment. Apply lightly and
uniformly to infested areas.

COCKROACHES (including adult and immature stages of
both non-resistant and organophosphate and carbamate
resistant strains), ANTS, CRICKETS, SILVERFISH AND
FIREBRATS: Apply thoroughly at a rate of 3 to 6 ounces per
100 square feet to all areas where these pests crawl and hide,
especially in cracks and crevices and hidden surfaces around
sinks and storage areas, behind baseboards, around doors and
windows, behind and under refrigerators, cabinets, sinks and
stoves and in attics and crawl spaces. For *Ants*, sprinkle freely
around ant trails, doors and windows and other places where
ants enter premises around nests hidden under steps,
brickwork, concrete, etc. Break apart accessible nests and
scatter powder freely on and around debris. Repeat as
necessary.

BROWN DOG TICKS AND FLEAS IN BUILDINGS: Apply
dust at a rate of 3 to 6 ounces per 100 square feet to infested
areas such as pet beds and resting quarters, nearby cracks and
crevices, under the edges of rugs and floor coverings, between
and under cushions of upholstered furniture and other areas
where these pests may be present. Old bedding of pets should
be removed and replaced with clean fresh bedding after
treatment of pet areas.

SPIDERS: Apply at a rate of 3 to 6 ounces per 100 square feet
along and behind baseboards, to window and door frames,
corners, pipes, storage localities, attics, crawl spaces and other
areas over which these pests may crawl.

SOWBUGS, PILLBUGS, GROUND BEETLES, EARWIGS,
MILLIPEDES, CENTIPEDES AND SCORPIONS: Apply at
a rate of 3 to 6 ounces per 100 square feet around doors and
windows and other places where these pests may enter
premises. Treat baseboards, storage areas and other locations
where these pests are found.

WASPS AND BEES: It is generally advisable to treat wasp
and bee nests in the evening when the insects are less active
and have returned to the nest. Wear protective clothing if
deemed necessary to avoid stings. Using hand or power duster
or other suitable means, with extension tubes if necessary,
thoroughly dust nest and entrance and surrounding areas where
insects light. Nests in wall voids can be located by listening
with your ear against the wall. Drill a hole in the area, blow
dust in, and reseal. For ground wasps, dust entrance and
surrounding areas. For best results, check nests carefully one

ACCEPTED

with COMMENTS

11715-319

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

REC'D EPA/CPP/DPD1

2/9

or two days after treatment to ensure complete kill, then remove and destroy nest to prevent emergence of newly-hatched insects. If removal is not feasible, retreat the nest, if necessary. Do not use this product to treat overhead nests.

PANTRY PESTS - GRAIN BEETLES (RUSTY, MERCHANT AND SAW-TOOTHED), FLOUR BEETLES, (RED AND CONFUSED), DRUGSTORE BEETLES, RICE WEEVILS, LESSER GRAIN BORERS, SPIDER BEETLES AND TOBACCO MOTHS: Treat exposed stages. Apply dust at a rate of 3 to 6 ounces per 100 square feet in cracks and crevices behind and under cupboards and cabinets for residual control. Do not apply directly on food, utensils or food storage areas.

CARPET BEETLES (BLACK, FURNITURE AND VARIED): Dust at a rate of 6 ounces per 100 square feet on and under edges of floor coverings, under rugs and furniture and in closets or other localities where these insects are found.

BEDBUGS: Dust mattresses at a rate of 3 ounces per 100 square feet, particularly around tufts and seams. Take beds apart and dust into all joints. Treat baseboards, moldings and floors. Repeat treatment as necessary.

WEBBING CLOTHES MOTHS: Use this product as a crack and crevice treatment in closets and other storage areas where these pests are found. This is an adjunct treatment and will not control moth larvae already on the clothes. Do not apply to clothing.

ON DOGS

TO KILL FLEAS, TICKS AND LICE AND TO REDUCE ITCHING AND SCRATCHING DUE TO INSECT BITES: Apply powder liberally over the entire body, beginning at the head and working back. Work dust into hair and around the feet, pads and between the toes by rubbing against the lay of the hair until dust penetrates to skin. Contact ticks with powder. Take care not to get the powder in animal's eyes, nose or mouth. Dust bedding, kennel, sleeping areas, carpeting and furniture used by infested animals. Repeat at weekly intervals if necessary.

OUTDOOR USE

PERIMETER TREATMENT: Use Speer Permethrin Dusting Powder as a residual treatment for control of *Ants, Bees,*

Brown Dog Ticks, Centipedes, Cockroaches, Crickets, Earwigs, Firebrats, Fleas, Ground Beetles, Millipedes, Pillbugs, Scorpions, Silverfish, Sowbugs, Spiders, Ticks and Wasps. Make a residual treatment around windows and doors, porches, screens, caves, patios, garages, under stairways and in crawl spaces and other areas where pests hide.

To help prevent invasion of buildings and structures by the above pests, treat a band of soil and vegetation 6 to 10 feet wide around and adjacent to the building or structure at a rate of 3 to 6 ounces per 100 square feet. Also treat the building foundation and crawl spaces where pests are active and find entrance. Apply thoroughly and uniformly to the band area. Pay particular attention to ant hills and wasp nests in the band area. Wasp and bee nests in trees and shrubs may be treated as noted above.

Notice: Buyer assumes all responsibility for safety and use not in accordance with directions.

STORAGE AND DISPOSAL

Do not contaminate food, feed or water by storage or disposal. **Pesticide Storage and Spill Procedures:** Store upright at room temperature. Keep away from moisture. Sweep up and dispose of with chemical waste.

Pesticide Disposal: Pesticide that cannot be used according to label instructions must be disposed of at or by an approved waste disposal facility.

Container Disposal: Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of liner in a sanitary landfill or by incineration if allowed by State and local authorities. If drum is contaminated and cannot be reused, dispose of in same manner.

CONTAINERS ONE POUND AND SMALLER: Do not reuse container. Wrap container in several layers of newspaper and discard in trash.
