EPA Registration No. 11715-323  
Your Submission Dated May 5, 2003

Dear Mr. Washburn:

The amendment referred to above, submitted in connection with registration under section 3 (c)(5) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable, subject to the comments listed below.

1. Under the "Precautionary Statements" section, move the statements "Not for use...before spraying" to the "Directions for Use" section of your label.
2. Under "To Kill Ticks and Fleas", add the following sentence to the end of the paragraph: "Also, treat your yard with a product registered for yard application."
3. Delete the phrase "or when necessary" from the statement "Repeat spraying in two weeks or when necessary."
4. Add the following statement to the "Directions for Use" section of the label: "Do not allow children or pets to contact treated area until surfaces are dry."

5. The results of a primary eye irritation study for this type formulation indicates it is Toxicity Category IV. Therefore you can remove the "If In Eyes" first aid statement from the labeling.

A stamped copy of the label is enclosed for your records. If you have any questions, please call Dr. William Sproat of my team at 703-308-8587.
