DIRECTIONS FOR USE

For most effective results use in a good sprayer adjusted to deliver a fine mist.

Mosquitoes, Flies, Gnats: Close all doors and windows. Direct the spray to all parts of the room. Fill the room with mist, then leave the treated area. Keep room closed for at least 15-30 minutes. Ventilate the room when treatment is completed.

Wasps: Application should be made in late evening when insects are at rest. Spray liberally into hiding and breeding places, contacting as many insects as possible. Repeat as necessary.

For Crawling Insects: Roaches, earwigs, grain mites, sow-bugs, spiders and centipedes. Spray thoroughly into hiding places such as cracks, crevices, moist areas, openings around pipes and sinks, under refrigerators, baseboards and storage areas. Spray directly on insect where possible.

Ants: Spray trails, nests and points of entry. Spray on ants where possible. Repeat as necessary.
