\* Disinfects Herpes Simplex virus on inanimate environmental surfaces

## DANGER: KEEP OUT OF REACH OF CHILDREN

FIRST AID AND ADDITIONAL PRECAUTIONS ON RIGHT PANEL

For hospital special-use areas:

**HOSPITAL FOGGING** As an adjunct to regular cleaning and disinfection procedures, unoccupied rooms may be treated by fogging with a solution of 3 oz. Intex "Plus 5" per gallon of water per average size room. Allow minimum of 2 hours after fogging has stopped before entering room.

**AUTOPSY ROOM** Mop floors and clean tables and equipment by spraying or spray with a solution of 1 oz. Intex "Plus 5" per gallon of water. For persistent odors, apply a solution of 2 oz. Intex "Plus 5" to the problem area.

**OUTPATIENT DEPARTMENT** Mop floors and wash walls, furniture and equipment with a solution of 2 oz. Intex "Plus 5" per gallon of water.

**DANGER:** Keep Out of Reach of Children. Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Protect eyes and skin when handling. Harmful if swallowed. Avoid contamination of food.

**FIRST AID:** In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, oratin solution or if these are not available, drink large quantities of water. Call a physician immediately.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against respiratory depression and convulsion may be needed.

Do not mix with other nondegradable detergents. Flush drains through toilets and slop sinks to further reduce odors.

Empty container thoroughly with water before discarding.
