NAME OF PESTICIDE PRODUCT

Intex 8331

NOTICE OF PESTICIDE:  REGISTRATION  
 REREGISTRATION  
(Under the Federal Insecticide, Fungicide,  
and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Intex Products, Inc.  
P.O. BOX 6648  
Greenville, SC 29606

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 11724-54" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 index no. for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

**ACTIVE INGREDIENT:**

Potassium dimethyl dithiocarbamate ..... 50.0%

**INERT INGREDIENTS** ..... 50.0%

This product contains 5.2 lb. of active ingredient per gallon and weighs 10.4 lb. per gallon.

## KEEP OUT OF REACH OF CHILDREN WARNING

### PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**WARNING:** Causes eye damage and skin irritation. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Avoid contamination of food. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly after handling.

**STATEMENT OF PRACTICAL TREATMENT:** *In case of skin contact, wash with plenty of soap and water. Remove contaminated clothing and wash before reuse. If product gets in the eyes, flush immediately with copious amounts of clean, cool water for at least 15 minutes. Get medical attention immediately. If product is swallowed, call a physician immediately. If patient is conscious, induce vomiting by stroking or tickling the patient's throat or far back on patient's tongue. Emetics such as 2 teaspoonsful (10 mL) of ipecac syrup or 1 teaspoonful (5 mL) of dry mustard in warm water to form a paste or even soap in warm water can be used. Repeat until vomit fluid is clear. Then have patient drink plenty of milk, gelatin solution, beaten egg whites, flour and water, or other nonally demulcent. Never induce vomiting or give anything by mouth to an unconscious person.*  
*Note to physician:* Probable mucosal damage may contraindicate gastric lavage.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish. Do not apply in marine and/or estuarine oil fields. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

## DIRECTIONS FOR

It is a violation of Federal law to use this product in a m

Intex 8331 is used to control bacterial and fungal slime in pulp and rates are 0.25-1.0 lb of Intex 8331 per ton of pulp or paper produced fo or each 24 hours. Required concentrations and frequency of treatment tex 8331 is added to the white water or stock going to the fan pump, broke, or other machine furnish components. To inhibit the growth of (including alum solutions, animal glue solutions, pigment slurries, coati tions) Intex 8331 is added to these materials in concentrations of 50-

Intex 8331 is used in industrial and/or commercial recirculating cool systems to control microbiological slime. Prior to the use of Intex 8331 cooling tower systems, systems should be cleaned to remove sludge deposits. Then make an initial slug addition of 2.0-3.0 fl oz of Intex 8331 of Intex 8331, based on total weight of water in the system. Repeat subsequent slug addition of 1.0-3.0 fl oz of Intex 8331 per 1000 gal of w as needed. The frequency of addition depends upon the relative a microbiological problem. Slug additions should be made in the sump

Intex 8331 is used in industrial air-washing systems which maintain et its use, systems should be cleaned to remove bacterial slime and other of Intex 8331 per 1000 gal of water is recommended. Repeat initial dos additions of 3.5-6.0 fl oz of Intex 8331 per 1000 gal of water should be frequency of addition depends upon the relative amount of bleedoff an tions may be made to the sump or the water collection trays of the a

Intex 8331 is used to control both aerobic and anaerobic bacter petroleum secondary-recovery waterflooding operations. In systems fo should be added as a slug dose to provide a concentration of 8-16 ppm ( water treated). This should be followed by a continuous addition of Int to maintain a concentration of 8 ppm, based on total weight of water addition of Intex 8331 should be made at the heater-treater dump, should always be made upstream to the filter.

Intex 8331 is also used to inhibit the growth of fungi and bacteria in packer fluids, and other water-based drilling fluids containing starch, these purposes Intex 8331 is added at rates of 0.8-3.0 gal per 100 ba

For the preservation of cutting fluids, 0.03-0.2% of Intex 8331, ba fluid, is recommended. In some cases, Intex 8331 may be added to th tex 8331 added then should be such that concentrations of 0.03-0.2% water for use in metalworking operations. For continued protection a diluted cutting fluid should be repeated every four weeks. More freq contamination of a particular cutting fluid system occurs.

Intex 8331 is a preservative used to control sulfate-reducing bacte degradation of crude oil and diesel and distillate heating oils during st it is being transferred from the shipping container to the storage tank a gal oil. Addition may be made batchwise where mixing occurs or co pump.

## STORAGE AND DIS

Do not contaminate water, food, or feed by storage or disposal.

**STORAGE:** Do not expose to extreme temperatures. Do not stack me drums should be placed in overpack drums for disposal. Spills should of in a sanitary landfill. Keep container closed when not in use.

**PESTICIDE DISPOSAL:** Pesticide wastes are toxic. Improper di rinseate is a violation of Federal Law. If these wastes cannot be dispo contact your State Pesticide or Environmental Control Agency, or the Regional Office for guidance.

**CONTAINER DISPOSAL:**

**PLASTIC:** Triple rinse (or equivalent). Then offer for recycling or r sanitary landfill, by incineration, or, if allowed by state and local smoke.

**METAL:** Triple rinse (or equivalent). Then offer for recycling or r sanitary landfill, or by other procedures approved by state and lo
