NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.		
<p>On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.</p> <p>A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.</p> <p>Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p> <p>This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:</p> <ol style="list-style-type: none"> 1. Submit/enclose all data or other material required for registration/reregistration of your product under FIFRA section 3(c)(5) or FIFRA section 3(c)(7)(A) when the Agency requires all registrants of similar products to submit such data. 2. Make the labeling changes listed below before you release the product for shipment: <ol style="list-style-type: none"> a. Add the phrase "EPA Registration No. 11746-38." b. Delete "Nonflammable." It is inappropriate and misleading for this formulation. We will consider the flammability issue further as we develop a position based on the Agency's proposal of February 20, 1991 [56 FR 6650]. This registration is issued using the June 8, 1989 formula marked BASIC FORMULATION. It does not apply to the formula of that date marked ALTERNATE (alternate propellant system - Isotron 142b/22 Blend). c. Use the declaration for Sumithrin from your original label copy, which is also the arrangement described in the Sumithrin Standard. We regret the confusion in this matter.
