

U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (7505C)
401 "M" St., S.W.
Washington, D.C. 20460

EPA Reg. Number:
11746-44

Date of Issuance:
MAR 10 1997

NOTICE OF PESTICIDE:
 Registration
 Reregistration

Term of Issuance: Until
Reregistration

Name of Pesticide Product: Davis
Kill-A-Bug XVI

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Louisiana Chemical USA, Inc.
6155 Evangeline Street
Baton Rouge, Louisiana 70815

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Change the label by revising the EPA Registration Number to read, "EPA Reg. No. 11746-44."
3. Submit two copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

DAVIS KILL-A-BUG XVI

To Be Applied Only By or Under the Supervision
Commercial Applicators Responsible for Insect Control Programs

A Water Based Insecticide with Flushing and Quick Knockdown Characteristics

Fast Acting, Long Lasting

Controls Cockroaches, Ants, Silverfish, Ticks, Spiders, Fleas, Crickets,
Beetles, Flies, Mosquitoes and Other Listed Insects

For Indoor and Limited Outdoor Use

For Indoor Use in Non-Food Areas of Commercial,
Institutional and Industrial Areas
(Including Bakeries, Bottling Plants, Canneries, Dumpsters, Flour/Grain Mills,
Food Processing Plants, Garbage Cans, Grocery Stores, Hospitals, Offices,
Public Buildings, Restaurants, Theaters, Trucks and Warehouses)
and Domestic Dwellings
(Including Apartments, Dumpsters, Garages, Garbage Areas/Cans,
Homes, Hotels and Motels)

Spray Concentrate

ACTIVE INGREDIENTS:

Pyrethrins	0.5%
*Piperonyl Butoxide, Technical	2.6%
**Chlorpyrifos	5.0%
INERT INGREDIENTS:	91.9%
Total	100.0%

*Equivalent to min. 2.1% (butylcarbityl)(6-propylpiperonyl) ether and 0.5% related compounds.

**0,0-Diethyl 0-(3,5,6-trichloro-2-pyridyl) phosphorothioate. U.S. Patent No. 3,244,586

ACCEPTED
with COMMENTS
in EPA Letter Dated

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

[Containers larger than one (1) gallon:]

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage and Spill Procedures: Store upright at room temperature. Avoid exposure to extreme temperatures. In case of spill or leakage, soak up with an absorbent material, such as sand, sawdust, earth, fuller's earth, etc. Dispose of with chemical waste. Protect from freezing. Do not transport or store under 32°F.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Triple rinse (or equivalent) then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or by other approved state and local procedures.

[Containers one (1) gallon or less:]

Storage: Store in original container in a cool, dry place (preferably locked) inaccessible to children or pets. Do not store below 32°F and protect from freezing. **Disposal:** Do not reuse empty container; wrap and discard in trash.

DILUTION DIRECTIONS

Prepare a spray by thoroughly mixing 13 fl. oz. of this product with sufficient water to make one gallon of finished spray. This provides a finished spray which contains 0.05% Pyrethrins, 0.26% Technical Piperonyl Butoxide and 0.5% Chlorpyrifos.

SHAKE WELL BEFORE USING

To Control Ants, Boxelder Bugs, Centipedes, Cockroaches, Crickets, Earwigs, Palmetto bugs, Pillbugs, Scorpions, Silverfish, Spiders, Spider Beetles and Waterbugs: Spray areas where these pests are found or may hide, including dark corners of rooms, closets, cracks, crevices, along baseboards, door sills and frames, behind and beneath sinks, stoves, refrigerators, cabinets and around garbage cans, plumbing and other utility installations. Pests flushed out of hiding should be sprayed directly.

Ants: Treat ant trails, nests and points of entry. Repeat treatment as necessary.

To Control Brown Dog Ticks: Thoroughly spray sleeping quarters of animals. Spray infested areas around baseboards, windows and door frames, wall and floor coverings where localized areas of infestation occur. Applications should be repeated as necessary. Fresh bedding should be placed in animal quarters following treatment. Do not treat animals with this formulation.

To Control Carpet Beetles, Cigarette Beetles and Clothes Moths: Spray edges of carpeting and under carpeting, rugs and closets. Make localized application to the floor and baseboards. Spray directly into cracks, crevices, closets and infested areas of shelving and/or wherever these insects are seen or suspected. Repeat as necessary.

To Control Fruit Flies, Gnats, House Flies, Mosquitoes and Small Flying Moths: For outdoor use only as an aid in reducing annoyance from these insects. Spray outside surfaces of screens, doors, window frames or wherever these insects may enter the room. Also treat surfaces around light fixtures on porches, in garages and other places where these insects alight or congregate.

To Kill Fleas and Brown Dog Ticks Indoors: Clean premises thoroughly before treatment. Spray an inconspicuous area of furniture, carpet or flooring to check for possible staining or discoloration. Using a coarse cone or fan spray, treat the entire floor and carpet area. Special attention should be given to cracks, crevices and under carpet and rug edges. Also treat animal sleeping quarters, closets, upholstered furniture (with particular attention to seams), under sofas and other furniture. In animal sleeping quarters, bedding should be cleaned or replaced with fresh bedding. Do not use this application in nurseries or any area where infants may sleep. Apply at the rate of approximately 1 gallon to 750 square feet (17 fl. oz. per 100 sq. ft.). To avoid reinfestation, pets must be simultaneously treated with an EPA registered insecticide labeled for use on animals. Application should be repeated as necessary. Humans and pets should avoid contact with treated surfaces (rugs, upholstered furniture, etc.) for 4 hours after treatment.

Application Within Food Handling Establishments (Places other than private residences in which food is held, processed, prepared or served) including, but not limited to, Restaurants, Grocery Stores, Bakeries, Bottling Plants, Canneries and Grain Mills: Use as a spot treatment in and around both food and nonfood areas to control *cockroaches* (including strains resistant to certain other insecticides) *ants*, *crickets*, *firebrats*, *silverfish*, *spiders* and stored product insects such as *confused flour beetles*, *saw-toothed grain beetles*, *Indian meal moths*, *rice weevils*, *Mediterranean flour moths* and *red flour beetles*. Apply as a coarse, low pressure (20 psi or less) spray to localized areas where the above pests have been seen or are suspected of hiding or entering. Apply only enough spray to thoroughly cover the surfaces treated using special care to avoid unnecessary runoff. Do not introduce the spray into the air or allow the spray to contact food or food-contacting surfaces. Areas treated may include dark corners of rooms and closets, along and behind baseboards, beneath and behind stoves, refrigeration units and similar food preparation areas and equipment; floor drains, and around plumbing and other utility installations. For *ants* apply to ant trails and wherever these pests may find entrance. Spot treatment may encompass crack and crevice treatment by applying small amounts of material directly into openings leading to voids and hollow spaces in walls, equipment legs and bases or which occur at points between different elements of construction or between equipment and floors. Equipment capable of delivering a pin stream of insecticide should be used. Repeat treatment as needed but not more than once every 7 days in restaurants and similar food service establishments or more often than once every 14 days in other types of food handling establishments. In case of emergency (call back), this product may be applied after two days from last treatment but emergency use should be limited to once per month. Applications of this product in food handling establishments other than as a spot and/or crack and crevice treatment are not permitted.

PRECAUTIONARY STATEMENTS
Hazards to Humans & Domestic Animals

CAUTION: Harmful if swallowed. Avoid contact with eyes, skin and clothing. Avoid breathing vapors or spray mist. Keep away from food, feedstuffs and domestic water supplies. Wash thoroughly with soap and water after handling. Do not allow children or pets to contact treated surfaces until spray has dried. Do not spray air in rooms or use on plants. Apply only as a surface spray as specified on this label. Do not allow spray to contact food, feedstuffs or water supplies. Thoroughly wash dishes and food handling utensils if contaminated with this product. Do not use in edible product areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed. Remove pets and cover fish bowls before spraying.

Statement of Practical Treatment

If Swallowed: Call a physician or poison control center immediately. Drink one or two glasses of water and induce vomiting by touching back of the throat with finger. Repeat until vomit fluid is clear. Do not induce vomiting or give anything by mouth to an unconscious person. **If Inhaled:** Remove person to fresh air. Apply artificial respiration if indicated. **If On Skin:** Remove contaminated clothing and wash affected areas with soap and water. Get medical attention if irritation persists. **If In Eyes:** Flush eyes with plenty of water. Call a physician. **Note to Physician:** Active ingredients contain a cholinesterase inhibitor. Treat symptomatically. If symptoms of inhibition are present, atropine sulfate by injection is antidotal.

Environmental Hazards

This product is highly toxic to birds, fish and other wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Buyer assumes all risks of use, storage or handling of this product not in strict accordance with directions given herein.
