

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

JUL 29 1983

Allied Chlorine Corporation
8350 NW 93rd Street
Miami, FL 33166

Gentlemen

Subject Chlorinating Solution
EPA Registration Number 11883-1
Your application of April 12, 1983

A review of the scientific and labeling requirements for the product listed above has been completed. You will be informed of the results of this review after you have complied with the requirements of PR-Notice 83-4 June 16 1983 as amended.

The previous methods of support which were being used by the Agency to process applications are no longer valid. PR Notice 83-4 provides interim alternate procedures for satisfying the 3(c)(1)(D) provisions of FIFPA concerning data support.

This notice has been mailed to all registrants whose address we have on record. If you have not received this mailing, you should contact the following office.

Registration Division (TS-767)
Registration Support Branch

DIRECTIONS FOR USE

GENERAL INFORMATION

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

DIRECTIONS FOR SWIMMING POOL CHLORINATION

For a new pool or for spring start up, superchlorinate (16 flu. ozs.) of sodium hypochlorite solution for each 6000 gallons of water. This dosage is equivalent to 5 ppm available chlorine by weight.

FOR POOL MAINTENANCE

A) Adjust pool water pH to 7.6 - 7.2 range and maintain. B) Add manually or by a feeder device, sodium hypochlorite solution at a rate to maintain an available chlorine of 0.6 to 1.0 ppm. One half pint (8 flu. ozs.) of sodium hypochlorite solution for each 6000 gallons of water will maintain 1.0 ppm available chlorine by weight. Frequency of application and number of swimmers. Use test kit to monitor and chlorine residual are in the proper range.

NOTE: This product degrades with age. Use a chlorine test kit to increase dosage, as necessary, to obtain the recommended chlorine residual.

STORAGE AND DISPOSAL: Store in a cool, dry place away from direct sunlight. In case of spill, flood area with large quantities of water. Rinse empty container thoroughly with water to manufacturer or discard by placing in trash collection container or approved land fill. Product or rinsate that cannot be recycled with water and disposed of in a sanitary sewer should not be used for food or feed by storage, disposal or cleaning of.
