NET WEIGHT 4 OZ.

runways or where mice feed, water or travel, e.g., in corners and concealed locations where mice can feed unobserved.

GENERAL

Check bait stations daily to assure an uninterrupted supply of bait for at least 15 days. Contaminated or spoiled bait should be replaced promptly. Where a continuous baiting program is required or is near rodent infested fields or dumps, set up permanent bait stations and protect from rain. Baits should be picked up and disposed of upon completion of rodent control program.

FOR CONTROL OF NORWAY AND ROOF RATS

Place 1 to 16 oz. of bait into a shallow container and place next to burrows, in runways or where rats feed, water or travel, e.g., in corners and concealed locations where rats can feed unobserved.

Four ounces of bait is effective for 1 or 2 rats.

FOR CONTROL OF THE HOUSE MOUSE

Place 1/4 to 1/2 ounces of bait into a shallow container and place at 8'-12' intervals in
