This DISINFECTANT is effective against a wide variety of gram-positive and gram-negative bacteria and pathogenic fungi.

This DISINFECTANT is also an excellent deodorant. Use it to control odors, especially those that are microbial in nature.

This DISINFECTANT mixes readily with water and makes a clear, stable solution. In use dilution, it is non-corrosive and non-staining to porcelain, enameled surfaces, glass, tile, plastics and most common metals.

CAUTION

Harmful if swallowed. Avoid getting in eyes or on skin. In case of contact, wash thoroughly with water. If irritation persists, get medical attention. Avoid contamination of food or foodstuffs. Avoid breathing spray mist.

Rinse empty container thoroughly with water and discard it.

DIRECTIONS

M-7

Use in hospitals, public rooms, homes, restaurants, barber and beauty shops and pet animal quarters for disinfecting floors, walls, tables, counter tops and other porcelain, enamel, tile, plastic or vinyl surfaces or furnishings.

FOR DISINFECTION

- 1. Flush away surface soils with water where possible.
- 2. Clean with a solution of 5 ounces of DISINFECTANT per gallon of water.
- 3. Rinse with clear water.

•

4. Apply disinfecting solution so as to thoroughly wet all surfaces. For non-porous, easily cleaned areas, make a disinfecting solution of 5 ounces of DISINFECTANT per gallon of water. For porous surfaces, areas difficult to clean, or contagious disease areas, make a disinfecting solution using 8 ounces of DISINFECTANT per gallon of water. Thoroughly rinse treated food contact surfaces before reuse.

FOR DEODORIZING

For garbage cans and similar refuse areas, use a solution of 16 ounces per gallon of water. Spray or wet all surfaces. MANUFACTURED BY
