

POOL-PAL 300

E.P.A. REGISTRATION NO. 12014-2

E.P.A. EST. REG. NO. 12014-WI-1

APPLICATION CHART FOR SWIMMING POOLS

Swimming Pool Capacity Gal. of Water	Initial Treatment	Treatment Once Every Two Weeks
1,000	8 ounces	4 ounces
2,000	16 ounces	8 ounces
3,000	24 ounces	12 ounces
4,000	32 ounces	16 ounces
5,000	40 ounces	20 ounces
6,000	48 ounces	24 ounces
8,000	64 ounces	32 ounces

Apply initial treatment to a freshly treated pool at first visible signs of algae growth.

NOTE:

This product is algacide rather than algicide. It kills only BLACK ALGAE. Be especially careful if it was present. Formation of BLACK ALGAE or BLACK ALGAE are killed, initial treatment must be used.

HOW TO ESTIMATE GALLON CAPACITY OF YOUR POOL

Measure Length (L) Width (W)
and average Depth (D) in feet.

For Square or Rectangular Pools:

$L \times W \times D \times 7.5 = \text{Gallons}$

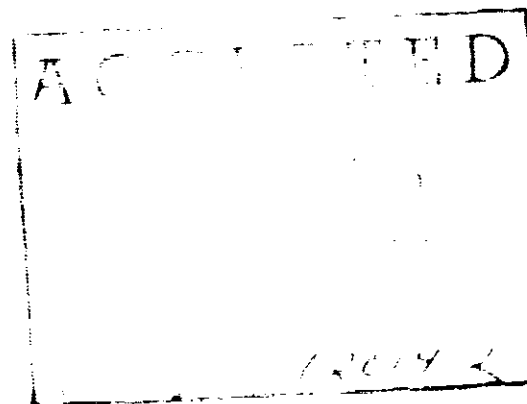

For Circular or Elliptical Pools:

$L \times W \times D \times 5.9 = \text{Gallons}$

NO WAITING. NO WAITING.

WATER MAY BE USED IMMEDIATELY AFTER TREATMENT.

POOL-PAL 300

This product is effective in controlling the growth of algae in swimming pools. The application of this product will control existing algae and subsequent algae will control the contamination by algae. The treated water may be used immediately. NO WAITING.

DIRECTIONS

Check the application chart to determine the amount of this product to use for your pool. For a freshly treated pool, at first visible signs of algae growth, pour the required amount of this product into a pail to which you can add water and sprinkle the pool product around the edge of the pool. For best results, the water should be treated regularly throughout the season.

CAUTION

This product may cause skin irritation. Do not get it on your eyes or clothing. In case of contact with skin, wash with water. This product may be harmful if swallowed. Use proper precautions.
