

CALCULATION OF WATER VOLUME

To determine the gallons of water in a pool with a rectangular or square surface, multiply, in feet, the length x width x average depth x 7.5. If the surface of the pool is oval or round, multiply, in feet, the length x width x average depth x 5.9.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. This product may be poured into the skimmer or evenly distributed around the edge of the pool. Water temperature of 80 degrees F or greater results in faster algae control.

PRECAUTION:

DO NOT USE TREATED WATER ON PLANTS OF LAWNS AS THIS PRODUCT AND THE OTHER POOL ADDITIVES WILL CAUSE DAMAGE.

PREVENTIVE ALGAE TREATMENT Apply 1 1/3 oz of this product (0.8 ppm simazine) per 10,000 gallons of pool water that is visibly clean. Repeat every 8-10 weeks or when algae reappear.

GREEN ALGAE CONTROL Apply 2 oz of this product (1.06 ppm simazine) per 10,000 gallons of pool water when algae growth is first visible. Seven days later, brush algae from walls, vacuum out settled algae, and immediately begin preventive algae treatment.

BLACK ALGAE CONTROL Apply 2 2/3 oz of this product (1.6 ppm simazine) per 10,000 gallons of pool water when algae growth is first visible. For fast results, remove top of algae growth with wire brush daily and vacuum out settled algae. Seven days later begin preventive algae treatment.

NOTE: Do not treat water intended for domestic use, such as for potable water or irrigation.

STORAGE AND DISPOSAL

Avoid contamination of food and feed. Do not reuse empty container. Wrap container tightly in trash collection.

U.S. Patent No. 2,891,887

FOR BLACK ALGAE CONTROL IN SWIMMING POOLS

ACTIVE INGREDIENTS

Simazine, 2-chloro-4,6-bis(ethylamino)-1,3,5-triazine

80-
20-
100

INERT INGREDIENTS

TOTAL

POOL-PAL BLACK ALGAECIDE II is a wettable powder.

KEEP OUT OF REACH OF CHILDREN CAUTION

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS

Harmful if swallowed. Avoid inhalation of dust. Avoid contact with eyes and skin.

ENVIRONMENTAL HAZARDS

Do not use in areas where water with a high pH (above 8.0) is present. Do not use in areas where water with a high pH (above 8.0) is present. Do not use in areas where water with a high pH (above 8.0) is present.

DIRECTIONS FOR USE AND CONDITIONS OF SALE AND WARRANTY

IMPORTANT: Read the entire label before using this product. It is a violation of federal law to use this product in a manner inconsistent with its labeling.

CONDITIONS OF SALE AND WARRANTY

The DIRECTIONS FOR USE of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application all of which are beyond the control of the manufacturer or the seller. All such risks shall be assumed by the buyer.

The manufacturer warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the DIRECTIONS FOR USE, subject to the inherent risks referred to above. The manufacturer makes no other expressed or implied warranty. The manufacturer and the seller offer this product and WARRANTY which may be varied only by agreement in writing signed by a duly authorized representative of the manufacturer.

GENERAL INFORMATION

This product is an algaecide that effectively prevents and controls the growth of algae in swimming pools. There is no waiting to swim after application. This product's effectiveness is not influenced by the normal range of swimming pool water pH.

This product is compatible with all pool additives, is non-staining, will not stain, and is non-corrosive to pool filters, heaters, piping, and fittings. Pool filtering systems will not reduce the effectiveness of this product. The use of this product will not replace the need for chlorine to maintain the proper pH and sanitation but does relieve the need for excessive quantities of chlorine to combat algae.

MIXING INSTRUCTIONS

Mix the correct dosage in a container of clear water, shake or agitate thoroughly, and evenly distribute the mixture over the water to be treated.
