

This algaecide is efficient, economical and stable in use dilution. It is compatible with most chemicals used in pool water and will not damage tile, concrete, metal, or plastics. Do not, however, pre-mix with other chemicals before application.

Keeps pool water free and sparkling, clear of visible algae, slime and green brown colors. It improves filter operation and cuts down need for other chemicals, and imparts tone and pleasant "feel" to swimming pool water.

PRECAUTIONARY STATEMENTS

DANGER

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Corrosive. Causes severe eye and skin damage. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge into lakes, streams, ponds or public waters.

STORAGE AND DISPOSAL

Avoid contamination of food and feed. Do not reuse empty container. Wrap container and put in trash collection.

NOTICE

Neither the manufacturer, nor the seller makes any warranty expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use of this product when such use is contrary to label instructions.

NET CONTENTS 1 QUART (32 fl. oz.)

Manufactured by
A & V, INCORPORATED
PEWAUKEE WISCONSIN 53072

DIRECTIONS FOR USE GENERAL CLASSIFICATION

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Initial Application: To a cleaned pool add 1 gal. to 50,000 gallons of water, or ratio thereof.

Maintenance Dose: 32 oz. per 50,000 gallons of water every 5 to 7 days. When weather is hot or bathing load is heavy, use this dosage every 5 days or as necessary.

Booster Dose: Immediately after every rain add one quart per 50,000 gallons of water as above.

Pour the required amount of this product into a plastic watering can, fill with water, and sprinkle the diluted product around the edge of the pool. For best results, the mixture should be distributed equally around the edge of the pool with the filter running, and the pH and chlorine levels in the acceptable range.

Important: Follow above directions without fail, even when pool is not used. Algae growth must be fought at all times.

STATEMENT OF PRACTICAL TREATMENT FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution; or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, as well as oxygen and measures to support breathing manually or mechanically may be needed.
