## ALGAECIDE

### ACTIVE INGREDIENT

Poly (oxyethylene (dimethyliminio) ethylene (dimethyliminio) ethylene dichloride.....30%

INERT INGREDIENT.....70%

TOTAL.....100%

**KEEP OUT OF REACH OF CHILDREN  
CAUTION**

See side panel for additional precautionary statements.

**NET CONTENTS 1 QUART (32 fl. oz.)**

This product is effective in controlling the growth of algae in swimming pools. The application of this product will control existing algae, and subsequent doses will control recontamination by algae.

**KEEP OUT OF THE REACH OF CHILDREN  
CAUTION!**

### PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**CAUTION:** Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes or clothing. **STATEMENT OF PRACTICAL TREATMENT:** IF SWALLOWED: Rinse mouth with copious amounts of water, then drink promptly a large quantity of water. DO NOT INDUCE VOMITING. Avoid alcohol. Get medical attention. IF IN EYES: Flush with plenty of water for 15 minutes. Get medical attention. IF ON SKIN: Wash with plenty of soap and water. Get medical attention if irritation persists.

### ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Keep out of lakes, streams or ponds. Permits may be required for discharges containing this pesticide into lakes, streams, ponds, or public water. For guidance contact the regional office of the Environmental Protection Agency.

### STORAGE AND DISPOSAL

**STORAGE:** Do not contaminate water, food, or feed by storage or disposal. Keep container closed when not in use. Leaking or damaged containers should be placed in a plastic bag and discarded in trash. Mop up spills with clear water. All pesticides should be kept out of reach of children and moved away from food.

**DISPOSAL:** Do not reuse empty container. Wrap container and place in trash.

### NOTICE

Neither the manufacturer, nor the seller makes any warranty, expressed or implied concerning the use of this product other than indicated on the label. Buyer assumes all risk of use of this product when such use is contrary to label instructions.

### DIRECTIONS FOR USE GENERAL CLASSIFICATION

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

For pools having just visible algae growth add an initial dose of 22 to 30 fluid ounces of this product per 10,000 gallons of water and remove settled algae debris by cleaning.

For treatment of a freshly cleaned and filled pool, add initially 12 to 22 fluid ounces of this product per 10,000 gallons of water.

To maintain pools free of visible algae growth, subsequent additions of 4 to 8 fluid ounces of this product per 10,000 gallons of water should be made every 5 to 7 days after the initial treatment. Uniform distribution of this product throughout the water in the pool is necessary for maximum effectiveness.

Pour the required amount of this product into a plastic watering can, fill with water, and sprinkle the diluted product around the edge of the pool. For best results, the mixture should be distributed equally around the edge of the pool with the filter running, and the pH and chlorine levels in the acceptable range.

This algaecide is efficient, economical and stable in use dilution. It is compatible with most chemicals used in pool water and will not damage tile, concrete, metal, or plastics. Do not, however, pre-mix with other chemicals before application.

**Important:** Follow above directions without fail, even when pool is not used. Algae growth must be fought at all times.
