DIRECTIONS FOR USE AND CONDITIONS OF SALE AND WARRANTY

IMPORTANT: Read the entire Directions for Use and the Conditions of Sale and Warranty before using this product.

Conditions of Sale and Warranty

The Directions for Use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application all of which are beyond the control of the Seller. All such risks shall be assumed by the Buyer.

The Seller warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use subject to the inherent risks referred to above. The Seller makes no other express or implied warranty of Fitness or Merchantability or any other express or implied warranty. In no case shall The Seller be liable for consequential, special, or indirect damages resulting from the use or handling of this product. The Seller offers this product, and the Buyer and user accept it, subject to the foregoing Conditions of Sale and Warranty, which may be varied only by agreement in writing signed by a duly authorized representative of the Seller

General Information

This product effectively prevents and controls the growth of algae in swimming pools. No waiting to swim is necessary in pools treated with this product. This product is not affected by the normal range of swimming pool water pH.

This product is compatible with all pool additives, is non-foaming, will not stain, and is non-corrosive to pool filters, heaters, piping, and fittings. Pool filtering systems will not reduce the effectiveness of this product. The use of this product will not replace the need for chlorine to maintain proper pH and sanitation, but does relieve the need for excessive quantities of chlorine to combat algae.

Mixing Instructions

Mix the correct dosage in a container of clear water, shake or agitate thoroughly, and evenly distribute the mixture over the water to be treated.

Calculation of Water Volume

To determine the gallons of water in a body of water with a rectangular or square surface, multiply, in feet, the length x width x average depth x 7.5. If the surface of the body of water is oval or round, multiply, in feet, the length x width x average depth x 5.9.

This product may be poured into the skimmer or evenly distributed around the edge of the pool. Water temperature of 80 F or greater results in faster algae control.

Green Algae Control: Apply 1.6 ounces of this product per 10,000 gallons of water when algae growth is first visible. Seven days later, brush algae from walls and vacuum out settled algae. Apply again when needed.

Black Algae Control: Apply 2.4 ounces of this product per 10,000 gallons of water when algae growth is first visible. For faster results, remove top of algae growth with wire brush daily and vacuum out settled algae. Apply again when needed.

PRECAUTION: Do not use treated water on plants or lawns as this product and other pool additives could cause damage.

NOTE: Do not treat water intended for domestic use such as for potable water or irrigation.

Storage and Disposal

Store in a dry place. Do not contaminate water, food, or feed. Do not reuse empty container. Wrap container and put in trash collection.

Precautionary Statements

Hazard to Humans and Domestic Animals

CAUTION

Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing dust or spray mist. Avoid contact with eyes, skin, or clothing.

First Aid: In case of contact, immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists.

Environmental Hazards

Do not contaminate domestic, livestock, or irrigation water supplies or lakes, stream, or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not apply when weather conditions favor drift from treated areas.
