and Rodenticide Act, as amended)

REGISTRATION
 REREGISTRATION

NAME OF PESTICIDE PRODUCT

Bin Gun II

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

One Star Brush and Chemical Co.
2320 Valdina
Dallas, TX 75207

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

(1) Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.

(2) Make the following labeling changes before you release the product for shipment:

- a. Add the phrase "EPA Registration No. 12047-9" to your product label.
- b. Delete the word "severe" from the precautionary statements section (i.e., Causes severe eye and skin irritation).
- c. Delete the "For Sale For, Use And Storage by Maintenance Personnel Only" from the label.
- d. Delete the word "milk" from the statement of practical treatment section.

(3) Submit a revised Confidential Statement of Formula and revise the lower certified limit for the active ingredients. Note that for the active ingredients the lower certified limit must be the same as the label claims.

DATE

(4) Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 5(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

John H. Lee, FM-31
Antimicrobial Program Branch
Registration Division (H7504C)

BEST AVAILABLE COPY

is a Heavy-Duty Industrial Strength Cleaner formulated to provide maximum cleaning efficiency as it disinfects. It is especially useful in schools, institutions and industry. A single application removes moderate amounts of dirt and grime, disinfects, and is virucidal. When used on hard surfaces, its disinfecting action will reduce the hazard of cross-contamination.

It will deodorize toilet areas, behind and under sinks and counters, garbage cans and garbage storage areas, and other places where mold and mildew can cause bad odors. It will inhibit the growth of mold and mildew and their odor when used as directed.

Cautionary Statements

Toxicity to Humans and Domestic Animals

WARNING

Keeps out of reach of children. Causes severe eye and skin irritation. Do not get in eyes, on skin, or on clothing. Harmful if swallowed. Avoid use on food.

STORAGE AND DISPOSAL

PROHIBITIONS

Do not contaminate water, food, or feed by storage or disposal.

Emptying is prohibited.

Store on side.

Prevent leaking or impaction of side walls.

PESTICIDE DISPOSAL

Residues are acutely hazardous. Improper disposal of excess pesticide, spray or mixture of rinsate is a violation of Federal Law. If these residues must be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL

For 5-gallon (or equivalent), then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by local authorities by burning. If burned, stay out of smoke.

For 1-gallon (or equivalent), then offer for recycling or reconditioning, or dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

If size is one gallon or smaller, do not reuse empty container. Wrap and place in trash collection.

DIRECTIONS FOR USE

GENERAL USE DIRECTIONS

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This is a proven "one-step" cleaner-disinfectant-sanitizer-fungicide-mildewstat-virucide in the presence of moderate amounts of organic soil.

Apply to walls, floors and other hard (inanimate) non-porous surfaces such as tables, chairs, countertops, sinks and bedframes with a brush or mechanical spray device so as to thoroughly wet surfaces. For heavily soiled areas, a preliminary cleaning is required. Prepare solution daily or when use solution becomes visibly dirty.

Disinfection—To disinfect hard, non-porous surfaces, add 3 oz. per gallon of water. Treated surfaces must remain wet for 10 minutes. At this level it is also virucidal, fungicidal and mildewstatic.

Sanitizing—To sanitize porous or non-porous, non-food contact surfaces, add 1 oz. per gallon of water.

3 oz. per gallon use-level. The broad spectrum of this product has been evaluated in the presence of 5% serum and found to be effective against the following organisms by the AOAC Use-Dilution test:

- Escherichia coli
- Salmonella choleraesuis
- Staphylococcus aureus

AOAC Fungicidal Test

It is effective against Trichophyton mentagrophytes (the athlete's foot fungus) when used on surfaces in areas such as locker room, bath areas, exercise areas, dressing rooms, etc.

Mold and Mildew Control

At 3 oz. per gallon, it will effectively inhibit the growth of mold and mildew and the odors caused by them when applied to hard, non-porous surfaces (as indicated in general instructions above). Allow to dry on surface and repeat when mildew growth returns.

Virucidal Performance

At 3 oz. per gallon use-level, this product was evaluated in the presence of 10% serum and found to be effective against the following: Staphylococcus aureus (a member of the virus family that causes infectious mononucleosis), Vaccinia (representative of the pox viruses), and Hong Kong Flu Virus on inanimate environmental surfaces.

Sanitizing—Non-Food Contact Surfaces (such as floors, walls, tables, etc.)

At 1 oz. per gallon use-level (2 minute contact time), this product is an effective sanitizing agent in waters of up to 400 ppm in the presence of 5% serum on porous and non-porous environmental surfaces.
