DESCRIPTION

A synthetic detergent-disinfectant with bactericidal, fungicidal and mildewstatic properties for broad spectrum control of microorganisms both gram positive and gram negative, insures outstanding cleaning and disinfecting in one operation. Is an effective deodorizer for surfaces contaminated by organic putrefaction.

ADVANTAGES

- Disinfects, mildewproofs, deodorizes, cleans.
- Floats dirt to the surface fast on floors, walls and equipment.
- Eliminates odors from vomit, urine and feces immediately.
- Kills athlete's foot fungi on environmental surfaces.
- Won't dull shiny floor finishes.
- Liquid form speeds operation and simplifies measuring.
- Combined cleaning, disinfecting and deodorizing in one step reduces overall costs.

USES

Essential in all institutional and industrial areas such as hotels and motels, animal hospitals, industrial plants, schools and clubs and nursing homes. Specifically: bathrooms, cages and runways, damp areas, examination rooms, for fabric disinfection, general floor and wall maintenance, kitchen and dining facilities, laboratories, locker rooms, personal lockers, rest rooms, shower room, for spot cleaning, swimming pool facilities, universal equipment and waste receptacles.

METHODS OF APPLICATION

- To guarantee complete disinfection and satisfactory cleaning, apply a fresh clean solution of Cleaner-Disinfectant in each new area to be cleaned.
- Clean solution should be in contact with surface for a period of 5 to 10 minutes if sprayed, wet mopped or sponged manually.
- To insure clean solution during entire operation, these two methods of application are recommended:

1. Spray, followed by mopping or brushing and wet vacuum pick-up of excess dirty solution.
2. Mop, using two buckets. Wring excess dirty solution into empty bucket and return wrung out mop to fresh solution bucket.

Nonflammable and nonvolatile. Excellent solubility in hot, cold, soft, or hard water. Contains biodegradable detergent. Dilute as directed by use of a standard liquid measuring cup or jug pump. Do not mix with other cleaners. Rinse empty Cleaner-Disinfectant container thoroughly with water and discard it.

Phenol Coefficients (A.O.A.C.)	Use Dilution Test (A.O.A.C.)
Salmonella typhosa 26	Salmonella choleraesuis 1:64
Staphylococcus aureus 29	Staphylococcus aureus 1:64

A.O.A.C. tests run in conformance with A.O.A.C. Eleventh Edition.

SSS QUATERNARY GERMICIDAL DETERGENT

CITRUS FRAGRANCE
 CLEANER - DISINFECTANT - DEODORANT
 BACTERICIDAL - FUNGICIDAL - MILDEWSTATIC

ACTIVE INGREDIENTS: Methyl dodecyl benzyl Trimethyl Ammonium Chloride 1%, Potassium Carbonate 1.5%, n-alkyl (50% C₁₂, 30% C₁₄, 17% C₁₆) Ethylbenzyl Ammonium Chlorides 1%, n-alkyl (60% C₁₄, 30% C₁₆) Dimethyl Benzyl Ammonium Chlorides 1%, Didecyl Dimethyl Ammonium Chloride 1%, Tetrasodium Ethylenediaminetetraacetate 1%, Methyl dodecyl xyllylene monium Chloride) 0.8%, Essential Oil 0.2%.

INERT INGREDIENTS: Water, Nonyl Phenoxy Polyethoxy Ethanol and

DANGER: - KEEP OUT OF REACH OF CHILDREN

DIRECTIONS

1. To clean, disinfect and deodorize walls, floors, tables, drinking fountains, sinks, refrigerators, stoves, restroom fixtures, telephone booths, kennels and garbage cans: Wash with solution containing 2 ounces of Cleaner-Disinfectant per gallon of water.
2. For light duty cleaning and sanitizing use 1 ounce of Cleaner-Disinfectant per gallon of water.
3. To clean and disinfect such articles as combs, brushes, razors, scissors, instruments and rubber goods: Wipe articles, clean and soak for ten minutes in a solution containing 1 ounce of Cleaner-Disinfectant per quart of water.
4. To disinfect fabrics such as sheets, linens, aprons and uniforms: Soak in solution containing 2 ounces of Cleaner-Disinfectant per gallon of water.
5. To clean grease laden or grossly contaminated surfaces use 4 to 6 ounces of Cleaner-Disinfectant per gallon of water.
6. To control mold and render mildewstatic action on walls, ceilings and surfaces of tile, metal, porcelain and glass: Wash with solution containing 2 ounces of Cleaner-Disinfectant per gallon of water. For continued mildewproofing, repeat application when new growth appears or as found necessary to maintain control.
7. To fog an unoccupied room as an adjunct either preceding or following regular cleaning and disinfecting procedures use a dilution of 1:100 or 8 ounces Cleaner-Disinfectant per gallon of water per average size room. Allow minimum of 2 hours after fogging has stopped before entering room.

DANGER: - KEEP OUT OF REACH OF CHILDREN.

Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Protect eyes and skin when handling. Harmful if swallowed. Avoid contamination of food. Avoid prolonged breathing of spray mist.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.
