NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

The registrant is advised that the registration of a pesticide is subject to the conditions set forth in the Act and in the regulations promulgated thereunder. The registrant is also advised that the registration of a pesticide is subject to the conditions set forth in the Act and in the regulations promulgated thereunder. The registrant is also advised that the registration of a pesticide is subject to the conditions set forth in the Act and in the regulations promulgated thereunder.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
AND DOMESTIC ANIMALS**

HAZARD: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or a face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES Permit. For guidance contact the regional office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS: STRONG OXIDIZING AGENT. Strong Oxidizing Agent. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat. Liberation of hazardous gases and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water if necessary.

SPECIAL PRECAUTIONS (PLEASE READ)

1. This product has a powerful chlorine odor. Hold away from face when opening to avoid breathing fumes.
2. Prolonged contact between this product in its undissolved state and vinyl linings or painted surfaces may result in bleaching of the vinyl or paint. Introduce this product through the skimmer or in a pre-scribed feeder to avoid discoloration of linings or paint.
3. When adding this product to skimmer or feeder make sure there are no other chemicals present as a violent reaction may occur. It is always dangerous to mix chemicals.
4. Use this product as directed as per instructions on label. Do not take advice from others or experiment by yourself.
5. If this product is used to shock or superchlorinate a pool after treatment it is important to brush walls and floor to expose algae that may be in cracks or wrinkles that might protect algae from high chlorine residual. Such protected algae may begin to reproduce again when high chlorine residual falls.
6. This product because of its potent formulation can be dangerous if not used properly. Do not mix with any other chemicals. This could result in a violent chemical reaction. Do not add water to this product in a closed container. Do not add this product to a small amount of water in a pool. When adding this product to skimmers make sure pump is on and water is circulating, so that material is drawn into recirculation system. Do not allow build up of dry material in skimmer as gases generated may cause an explosion.

**SLOW DISSOLVING
CHLORINATING
STICKS**

Active Ingredient	
Trichloro-s-triazinetriene*	99.0%
Inert ingredient	1.0%
*Provides 89% Available Chlorine	

**KEEP OUT OF REACH OF CHILDREN
DANGER**

PRACTICAL TREATMENT: First Aid: If swallowed feed bread soaked in milk followed by olive oil or cooking oil. Call a physician immediately if on skin. Wash off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention. If in eyes flush with cold water for at least 15 minutes. Get medical attention.

NET WEIGHT

DIRECTIONS

It is a violation of Federal law to use this product without its labeling.

1. Actual water pH to 7.2 with copper plumbing best.
2. If the pool has not been stabilized with cyanuric acid use that product.
3. Slightly chlorinate in the blue line later. It results in moved faster from the action of the sticks.
4. In newly filled pools, 10 per 5000 gallons of pool to 15 ppm at all times per week or as needed ppm at all times as of water. Follow steps 1 and 2 at all times as determined. Please note the pH of water and will tend to reduce. Proper pH should be maintained by periodic addition.

STORAGE

Keep this product dry in a cool, dry, well ventilated area. In case of decomposition, use large amounts of water to flush. Do not use in equipment. Do not contaminate food.
