PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS

CAUTION

May be irritating if swallowed or absorbed through skin. Avoid contact with skin, eyes, or clothing. Avoid exposing babies and small children.

FIRST AID

In case of contact, immediately flush skin and eyes with plenty of water for at least 15 minutes. For skin and eyes, call a physician if irritation persists from exposure; call a physician at once.

PHYSICAL OR CHEMICAL HAZARDS

Flammable liquid. Combustible. **DO NOT USE**. POUR, SPILL, OR STORE NEAR HEAT OR OPEN FLAME.

ENVIRONMENTAL HAZARDS

May be toxic to fish and birds. Keep out of lakes, streams, ponds, rivers, and ditches. Do not apply where runoff is likely. Do not apply in the weather and times favoring drift from areas of application. Remove water by cleaning of equipment.

DIRECTIONS FOR USE

For use only on the label. Do not use this product in a manner inconsistent with labeling.

STORAGE AND DISPOSAL

PROHIBITIONS Do not contaminate water, food, or feed by storage or disposal. Spill cleanup is prohibited.

PESTICIDE DISPOSAL Empty or spray-in storage container that will be recycled or reused should be disposed of in accordance with label for pesticides or buried in a safe place away from water.

CONTAINER DISPOSAL Do not reuse or refill. Empty and offer for recycling or disposal in approved and labeled containers. A 1-gallon size of 30 days or more may be recycled.

GENERAL See Federal, state or local disposal regulations for disposal instructions.

STORAGE Store in original container in a cool, dry place.

A SYNTHETIC PYRETHROID FOR CONTROL OF FLIES AND MOSQUITOES

ACTIVE INGREDIENTS:

** Resmethrin	5.000	g
Methy. 2,2-dimethyl-3-propylbutyrate	0.027	
Methy. 3-propylbutyrate	0.265	
Propylene glycol	99.500	
Residuals	0.008	
INERT INGREDIENTS	100.000	

* U.S. Patent Nos. 3,465,011 and 3,542,928

** Penck's SBP 1387. For more information, contact Penck Corp., 1050 Walnut Street, West Conshohocken, PA 19381

DIRECTIONS FOR USE

(Continued from Left Panel)

This formulation is suitable for use with thermal applicator equipment. The particle size is within the aerosol size range.

THERMAL APPLICATIONS INDOORS For the control of flies, mosquitoes and gnats in warehouses, restaurants and industrial institutions. Remove flies from surfaces. Remove gnats from systems. Use in the room or area to be treated. Plant is occupied.

Extend nozzle to a distance of 12 inches from the nozzle of the applicator. Treat the room and the area around the room. Apply the treatment. Apply as necessary.

THERMAL APPLICATIONS OUTDOORS For the control of annoyance from flies, mosquitoes and gnats around swimming pools, professional kennels, horse stables, and other small animal quarters.

Apply the treatment. Apply as necessary. Apply the treatment. Apply as necessary. Apply the treatment. Apply as necessary. Apply the treatment. Apply as necessary. Apply the treatment. Apply as necessary. Apply the treatment. Apply as necessary.

DIRECTIONS FOR USE

(Continued from Left Panel)

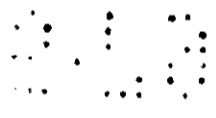

Use this product to be used and used only such portable thermal applicator equipment that can deliver spray particle sizes within the aerosol size range.

THERMAL APPLICATIONS INDOORS For the control of flies, mosquitoes and gnats in warehouses, restaurants and industrial institutions. Remove or cover exposed food and food handling surfaces. Remove animals and plant life. Shut off ventilating systems, air ducts, air conditioning equipment and close off room or area to be treated. Do not apply while food processing plant is occupied or in operation.

Extinguish all flames and pilot lights. Apply as a dry fog at the rate of 1 1/2 fluid ounces per 1000 cubic feet of space. Direct nozzle of thermal applicator toward the upper corners of the room and along the ceiling. Close off room for at least one half hour. Do not reenter treated areas. Ventilate the area after treatment. Sweep up and destroy fallen insects. Repeat treatment if necessary.

THERMAL APPLICATIONS OUTDOORS For reduction in annoyance from flies, mosquitoes and gnats in yards, patios, around swimming pools, picnic areas, camp sites, drive ins, and horse stables, and other small area applications.

Use thermal applicator only in areas free from any subject especially plants and shrubbery. Avoid wetting any plant foliage. Apply at rate of the rate of 1 1/2 fluid ounces per 1000 cubic feet of space. Apply with the wind blowing from the applicator toward the area to be treated. Apply only at low wind speeds (less than 3 miles per hour). Do not apply at low humidity or low relative humidity. Do not apply at temperatures below 50 degrees Fahrenheit. The fog will settle in the treated area for a longer time. Apply fog while the applicator is held at least 10 feet from the treated area. Do not reenter treated areas until the fog has settled. Repeat treatment if necessary.
