INDUSTRIAL CLEANERS AND PROCESSING COMPOUNDS

NET CONTENTS

Chemex 3110 Lemon Odor Disinfectant is effective against a wide variety of gram-positive and gram-negative bacteria and pathogenic fungi.

Chemex 3110 Lemon Odor Disinfectant is also an excellent deodorant. It is especially advantageous to control odors that are bacterial in origin.

Chemex 3110 Lemon Odor Disinfectant mixes readily with water and makes a clear, stable solution. In use dilution, it is non-corrosive and non-staining to plastic, vinyl, synthetics, enamel, tile and most common metals. Has a pleasant lemon odor.

WARNING

Keep out of reach of children: Causes eye or skin irritation. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food. Avoid breathing spray mist.

First Aid: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. If irritation persists, get medical attention. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk or raw egg white. If these are not available, drink a large quantity of water. Avoid alcohol. Call a physician immediately.

Rinse empty container thoroughly with water and discard it.

This DISINFECTANT is effective against a wide variety of gram-positive and gram-negative bacteria and pathogenic fungi.

This DISINFECTANT is also an excellent deodorant. It is especially advantageous to control odors that are bacterial in origin.

This DISINFECTANT mixes readily with water and makes a clear, stable solution. In use dilution, it is non-corrosive and non-staining to plastic, vinyl, synthetics, enamel, tile and most common metals. Has a pleasant lemon odor.

UNDER THE FEDERAL INSECTICIDE
FUNGICIDE AND ROBOTICIDE ACT
FOR ECONOMIC POISON REGISTER-
ED UNDER NO. 12308-1 SUBJECT
TO ATTACHED COMMENTS.

Use in hospitals, public restrooms, and beauty shops and for disinfection of walls, floors, linoleum, synthetics and finished wood.

FOR D

1. Flush away surface soil.
2. Clean with a solution of 1 ounce per gallon of water.
3. Rinse with clear water.
4. Apply disinfecting solution to surfaces. For non-porous surfaces, use a disinfecting solution of 1 ounce per gallon of water. For porous surfaces, use a disinfecting solution of 2 ounces per gallon of water. For contaminated surfaces, use a disinfecting solution of 4 ounces per gallon of water.
5. Surfaces contacting food should be washed after treatment. Other surfaces should be washed after treatment.

FOR D

For garbage cans and similar containers use 8 ounces per gallon of water.

FOR MI

Use on enamel, porcelain, chrome, and stainless steel. Follow directions for use every seven days, or when necessary.

DIRECTIONS

Use in hospitals, public rooms, homes, restaurants, barber and beauty shops and pet animal quarters for general disinfection of walls, floors, glass, metal, plastic, porcelain, synthetics and finished wood surfaces and furnishings.

FOR DISINFECTION

1. Flush away surface soils with water where possible.
2. Clean with a solution of 2½ ounces of DISINFECTANT per gallon of water.
3. Rinse with clear water.
4. Apply disinfecting solution so as to thoroughly wet all surfaces. For non-porous, easily cleaned areas, make a disinfecting solution of 2½ ounces of DISINFECTANT per gallon of water. For porous surfaces, areas difficult to clean, or contagious disease areas, make a disinfecting solution using 5 ounces of DISINFECTANT per gallon of water.
5. Surfaces contacting food must be thoroughly rinsed after treatment. Otherwise, rinsing is not required.

FOR DEODORIZING

For garbage cans and similar refuse areas, use a solution of 8 ounces per gallon of water. Spray or wet all surfaces.

FOR MILDEW CONTROL

Use on enamel, porcelain, tile and plastics to control mildew. Follow directions for disinfection. Repeat treatment every seven days, or when new growth appears.
